

# SAME UNIVERSE

## TWO DIFFERENT VIEWS

### HUMAN REASON

BILLIONS OF YEARS AGO, time and matter came into existence in a big bang. Ever since then, natural processes have gradually produced the universe we see today—first galaxies, then our solar system, the earth and moon, and finally the ocean and continents.

### GOD'S WORD

THOUSANDS OF YEARS AGO, God created heaven and earth from nothing. Over the next four days, the power of His spoken word gave form to the firmament, the ocean, and continents; and later He filled the firmament with the sun, moon, and stars.
