

SAME PLANTS & ANIMALS

TWO DIFFERENT VIEWS

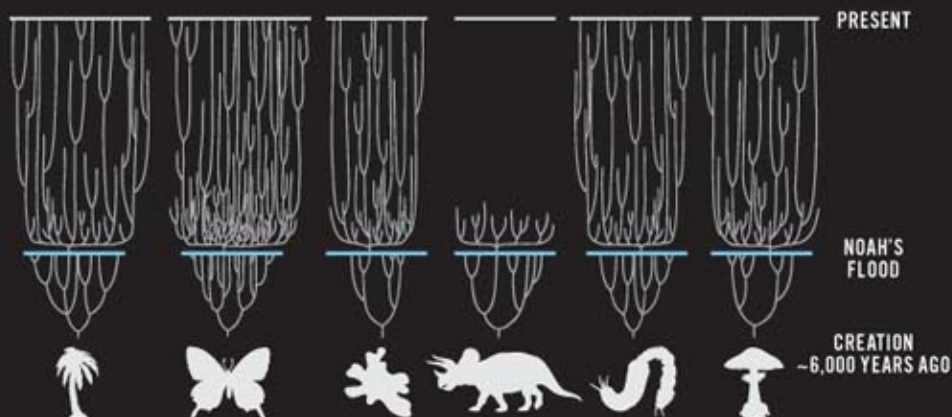

HUMAN REASON

FIRST LIFE
-4 BILLION YEARS AGO

FOUR BILLION YEARS AGO, natural processes produced the first living creature. Slowly over time, that single-celled organism produced all the kinds of plants and animals we see in today's "tree of life."

GOD'S WORD

SIX THOUSAND YEARS AGO, God created every separate "kind" of plant and animal by His spoken word. God placed great variability within the parents of each kind. As their offspring filled the earth, each kind produced a separate "creation orchard."
