

## Chapter 11

# Jesus' View of the Age of the Earth

Terry Mortenson<sup>1</sup>

### Introduction

What does Jesus have to say about the age of the earth? That surely should be a question of interest and importance to all Christians and a determining factor in their own belief on the subject.

For Jesus, the Word of God was the bread of life, without which no man could live (Matt. 4:4). He taught that we are like a wise man who built his house on a solid rock, if we hear His words and act upon them (Matt. 7:24–27). As Ravi Zacharias correctly observes in his book refuting atheism, “Jesus claimed to be ‘the truth.’ Let us test His claims and teachings. If they are true, what He says matters more than anything else in life.”<sup>2</sup> The Chicago Statement on Biblical Inerrancy similarly declares about Jesus that, “His words were crucially important; for He was God, He spoke from the Father, and His words will judge all men at the last day.” The ICBI scholars added that “the authority of Christ and that of Scripture are one,” and that “as He bowed to His Father’s instruction given in His Bible (our Old Testament), so He requires His disciples to do.”<sup>3</sup>

*Unless otherwise noted, all Scripture in this chapter is from the NAS95 version of the Bible.*

1. I wish to acknowledge my deep gratitude for the numerous, insightful, and strong criticisms of earlier drafts of this chapter given to me by Dr. Philip Brown, Associate Professor of Bible and Theology at God’s Bible School & College in Cincinnati, Ohio. Remaining defects in my argument, of course, are completely my responsibility.

This chapter was originally published in *The Master’s Seminary Journal*, 18:1 (Spring 2007): p. 69–98. It is republished here (with minor changes) by kind permission of the journal.

2. Ravi Zacharias, *Can Man Live Without God?* (Nashville, TN: W Publishing, 1994), p. 131.
3. Norman L. Geisler, ed., *Inerrancy* (Grand Rapids, MI: Zondervan, 1980), p. 499–500. The ICBI statement is reproduced in full in that volume.

Following the teaching and example of the Lord Jesus Christ, every Christian ought to conform his beliefs, teachings, and behavior to the inspired, inerrant, authoritative Word of God.

However, many Christians, even many Christian scholars, seem to be unaware that Jesus said things relevant to the age of the earth. Before considering those statements, it is important to briefly examine what Jesus said about Scripture generally and Genesis 1–11 in particular. This will shed light on how we should interpret the early chapters of the Bible. Then we will examine a number of the writings of young-earth and old-earth scholars to see how they deal with the teachings of Jesus on the subject. It will be argued that Jesus clearly was a young-earth creationist and that if we call Him Lord we should follow Him on this subject (like all others), rather than the contemporary scientific majority or the evangelical theological majority.

### Jesus' View of Scripture

In John 10:34–35 Jesus defended His claim to deity by quoting from Psalm 82:6 and then asserting that “Scripture cannot be broken.” That is, the Bible is faithful, reliable, and truthful. The Scriptures cannot be contradicted or confounded. In Luke 24:25–27 Jesus rebuked His disciples for not believing all that the prophets have spoken (which He equates with “all the Scriptures”). So, in Jesus’ view, all Scripture is trustworthy and should be believed.

Another way that Jesus revealed His complete trust in the Scriptures was by treating as historical fact the accounts in the Old Testament which most contemporary people think are unbelievable mythology. These historical accounts include Adam and Eve as the first married couple (Matt. 19:3–6, Mark 10:3–9), Abel as the first prophet who was martyred (Luke 11:50–51), Noah and the Flood (Matt. 24:38–39), the experiences of Lot and his wife (Luke 17:28–32), the judgment of Sodom and Gomorrah (Matt. 10:15), Moses and the serpent (John 3:14), Moses and the manna (John 6:32–33, 49), the miracles of Elijah (Luke 4:25–27), and Jonah and the big fish (Matt. 12:40–41). As Wenham has compellingly argued,<sup>4</sup> Jesus did not allegorize these accounts but took them as straightforward history, describing events that actually happened just as the Old Testament describes. Jesus used these accounts to teach His disciples that the events of His own death, resurrection, and second coming would likewise certainly happen in time-space reality.

All these above-mentioned statements reflect some aspect of Jesus’ attitude toward or belief about the Scriptures. But far more frequently Jesus reveals His conviction about the authority of Scripture. Its authority is shown in the way Jesus used the Old Testament. He constantly quoted it as a basis for His own teaching on such topics as church discipline (Matt. 18:16), marriage (Matt. 19:3–9), God’s requirements for eternal life (Matt. 19:16–19), the greatest commandment (Matt. 22:37–39), and the fact that He will cause family divisions (Matt. 10:35–36).

---

4. John Wenham, *Christ and the Bible* (Downers Grove, IL: IVP Press, 1973), p. 11–37.

He used the Old Testament as His justification for cleansing the temple (Matt. 21:12–17) and for His disciples picking grain on the Sabbath (Luke 6:3–4). It is the “weapon” He used in His response to the temptations of Satan (Matt. 4:1–10). And in a totally unambiguous manner, He stated that the Old Testament sits in judgment over all the man-made traditions and ideas of public consensus (Matt. 15:1–9). Jesus demonstrated that there is nothing higher than Scripture to which we can appeal as a source of truth and divine standards for what we are to believe and obey (Mark 7:5–13). The thoughts of men are nothing compared to the commandments and testimonies of God. It is a very serious error, according to Jesus, to set them aside in order to submit to some other source of supposed truth, whether human or supernatural.

There is no evidence that Jesus dissected the Old Testament and trusted only the so-called “theological,” “moral,” or “religious” portions. For Him, all the Scriptures were trustworthy truth, down to the last jot (Matt. 5:18). Nor do we ever find Him appealing to some higher authority to bring out some “hidden meaning” of Scripture. Also, Jesus indicates that the Scriptures are essentially perspicuous: 11 times the gospel writers record Him saying, “Have you not read . . . ?”<sup>5</sup> and 30 times He defended His teaching by saying “It is written.”<sup>6</sup> He rebuked His listeners for not understanding and believing what the text plainly says.

Jesus repeatedly and boldly confronted all kinds of wrong thinking and behavior in his listeners’ lives, in spite of the threat of persecution for doing so. Even his enemies said, “Teacher, we know that You are truthful, and defer to no one; for You are not partial to any, but teach the way of God in truth” (Mark 12:14). As Wenham cogently argued, Jesus never adapted His teachings to the common, but ignorant and mistaken, beliefs of his audiences.<sup>7</sup> Jesus knew the difference between parables and history, and between the traditions of men and the truth of God’s Word (Mark 7:8–13). He spoke in truth (Luke 4:25) because He was and is the truth (John 14:6), and He frequently emphasized this with the introduction, “Truly, truly I say . . .” (e.g., John 3:3). He also explained that believing what He said about earthly, time-space reality was the ground for believing what He said about heavenly realities, such as eternal life, forgiveness of sin and spiritual rebirth (John 3:12). In other words, if we do not believe what He said about things we *can* verify, how can we legitimately believe what He says about the things we *cannot* verify in this life? He also said that believing the writings of Moses was foundational to believing His words (John 5:45–47). Jesus (like

5. In these instances Jesus referred to Genesis 1–2, Exodus 3–6, 1 Samuel 21:6, Psalm 8:2, Psalm 118:22, and to unspecified Levitical law — in other words, to passages from the historical narrative, the Law and the poetry of Scripture.
6. Passages He specifically cited were from all five books of the Pentateuch, Psalms, Isaiah, Jeremiah, Zechariah, and Malachi. Interestingly, in the temptation of Jesus, Satan used Scripture literally and, in response, Jesus did not imply that the literal interpretation of Satan was wrong. Rather, He corrected Satan’s *misapplication* of the text’s literal meaning by quoting another text, which He took literally (cf. Matt. 4:6–7).
7. John Wenham, “Christ’s View of Scripture,” in Geisler, *Inerrancy*, p. 14–15.

all the apostles and prophets) clearly viewed the Bible's history as foundational to its theology and morality.

### Jesus' Teaching on the Age of the Earth

Besides the above-mentioned evidence that Jesus took Genesis 1–11 as straightforward reliable history, the gospel writers record several statements that Jesus made which are relevant to the age of the earth. Those verses, hereafter collectively referred to as the “Jesus AGE verses,” show that Jesus was a young-earth creationist (i.e., He believed in a literal 6-day creation a few thousand years ago and the global Flood at the time of Noah). Those verses are:

1. “But from the beginning of creation, God made them male and female” (Mark 10:6).
2. “For those days will be a time of tribulation such as has not occurred since the beginning of the creation which God created, until now, and never will. Unless the Lord had shortened those days, no life would have been saved; but for the sake of the elect, whom He chose, He shortened the days” (Mark 13:19–20).
3. “. . . so that the blood of all the prophets, shed since the foundation of the world, may be charged against this generation, from the blood of Abel to the blood of Zechariah, who was killed between the altar and the house of God; yes, I tell you, it shall be charged against this generation.” (Luke 11:50–51)

The key phrases that will attract our attention in these verses are “from (or since) the beginning of creation” and “since the foundation of the world.” Old-earth advocates who interact with these verses contend that in them Jesus is not referring to the beginning of the whole creation but only to the beginning of the human race, which they believe was millions of years after the creation of the universe, earth, trilobites, dinosaurs, etc. (a belief that flows from their acceptance of the secular scientists' view of earth and cosmic history). In what follows I will first present my exegetical arguments for concluding that in these verses Jesus is referring to the beginning of the world (the whole creation week). Then later I will come back to these texts as I interact with the writings of the few old-earth proponents who have addressed these verses with respect to the age of the earth.

1. *Mark 10:6* “But from the beginning of creation, God made them male and female.”

Commentators agree that in Mark 10:6–8 Jesus is quoting from Genesis 1 & 2. So, the “male and female” he refers to are Adam and Eve. Jesus says they were “from the beginning of creation” (ἀπ' ἀρχῆς κτίσεως). To what does that phrase refer — to the beginning of the human race or to the beginning of creation in Genesis 1:1 or something else?

Besides its use in Mark 10:6, “from the beginning of creation” (ἀπ’ ἀρχῆς κτίσεως) appears in Mark 13:19 and 2 Peter 3:4. In 2 Peter 3:4, Peter is speaking about the past and the future of the whole heavens and earth, not simply of humanity. His reference to the beginning of creation must, therefore, be equally cosmic in extent. In a similar phrase in Revelation 3:14, Jesus says that He is “the beginning (or ruler) of the creation” (ἡ ἀρχὴ τῆς κτίσεως), which certainly applies to all of creation.<sup>8</sup>

The phrase “from the beginning” (ἀπ’ ἀρχῆς) occurs 20 times in the NT. Of those 20 uses, 5 have the initiation point of the cosmos in view. Never does it clearly refer to the beginning of the human race. It appears three times in 1 John 1:1 and 2:13–14. Comparing the language of these two passages to John 1:1–3 (which uses ἐν ἀρχῇ, “in the beginning”) shows that John is referring to the beginning of creation (not merely the beginning of the human race), for he speaks of Christ being in or from the beginning and the Creator of all things.

The phrase ἀπ’ ἀρχῆς also appears in Matthew 19:4 and 19:8, John 8:44, 2 Thessalonians 2:13, and 1 John 3:8. Matthew 19:4–8 is parallel to the account in Mark 10, so the similar phrases must have the same meaning. John 8:44 and 1 John 3:8 speak about Satan and teach that he has sinned, lied, and murdered from the beginning. This undoubtedly refers to his fall, his deception of Eve, and his behind-the-scenes influence in Cain’s killing of Abel. Since we do not know exactly when Satan fell (except that it was before he tempted Eve), these two verses by themselves are too vague to either support or oppose clearly the view that “from the beginning” refers to the beginning of creation. But nothing in the context would restrict the meaning only to the beginning of the human race. Because of Paul’s comment on divine election in Ephesians 1:4 (that God chose us “before the foundation of the world”), it seems most reasonable to conclude that in 2 Thessalonians 2:13 he is referring to the same beginning of the whole creation. It seems unlikely that he has merely the beginning of the human race in mind here.

Hebrews 1:10 contains the phrase κατ’ ἀρχάς, which is translated as “in the beginning” in the most prominent translations.<sup>9</sup> Since, according to the rest of the verse, this is when the earth was founded or established and the heavens were made, the beginning refers to the events of the whole creation week.

All other uses of “from (or in) the beginning” are irrelevant to the meaning of Mark 10:6, for the context shows that the phrase in these cases refers to either the beginning of the Scriptures (i.e., the time of Moses), or the first hearing of the gospel by some people in the first century, or the beginning of Jesus’ earthly

8. See David E. Aune, *Word Biblical Commentary, vol. 52: Revelation 1–5* (Dallas: Word, 1997), p. 256, for the different interpretations of ἡ ἀρχὴ here. Either way, the phrase refers to all of creation, which is consistent with the meaning of the other similar phrases.

9. KJV, NKJV, NIV, NAS, ESV, NLT, RSV, and HCSB.

ministry, or the beginning of Paul's life or ministry. Never do these phrases mean the beginning of the human race.<sup>10</sup>

From this discussion, I conclude that when Jesus uses the phrase in Mark 10:6, "from the beginning of creation," He is referring to the beginning of the whole creation, which encompasses the whole creation period described in Genesis 1. Jesus was not merely referring to the creation of the first marriage on day 6.

2. *Mark 13:19* "For those days will be a time of tribulation such as has not occurred since the beginning of the creation which God created until now, and never will. Unless the Lord had shortened those days, no life would have been saved; but for the sake of the elect, whom He chose, He shortened the days."

Like Mark 10:6, this verse uses ἀπ ἀρχῆς κτίσεως. But in 13:19 the phrase is modified by "which God created" (ἣν ἔκτισεν ὁ θεὸς). The relative pronoun (ἣν) is feminine, so the clause modifies either of the feminine nouns, "creation" or "beginning" in the previous phrase. It is doubtful that Jesus is saying that God "created the beginning." Such wording is not used anywhere else in Scripture and it is difficult to see why Jesus would emphasize such a point. Also, the closest antecedent noun of "which" is "creation," linking the two together. Furthermore, Romans 1:18–20 indicates that sinners deny that God is the *Creator*, not that there was a beginning to the physical world. So surely Jesus means the "creation, which God created," with "creation" referring to the whole of creation week during which God created, not just to the events of making Adam and Eve.

Another consideration that supports this conclusion is that in Mark 13:19 Jesus creates a time-line: from the beginning of creation until now and on to the end of this present cosmos (v. 20), when heaven and earth will pass away (v. 31). Mark 13:24–26 and 13:30–32 coupled with Matthew 24:14 and 24:37–39 clearly show that Jesus thinks that the present human experience and the present cosmos will come to an end at essentially the same time (cf. 2 Peter 3). Together, these verses would support the notion that humanity and the rest of creation also began at essentially the same time in the past.

Since the suffering under consideration is human (not animal) suffering, there must have been humans at the beginning of creation in order for Jesus' time-line to make sense. If there were no humans in existence from the beginning

---

10. First John 2:7 is referring either to the beginning of the Scriptures (i.e., the time of Moses) or more likely to the time when John's initial readers first heard the Apostles' preaching or believed the gospel. Likewise, 1 John 2:24, 3:11, and 2 John 5–6 refer to when John's readers became Christians. Luke 1:2 refers to the disciples at the beginning of Jesus' earthly ministry. John 6:64 refers to either the beginning of Jesus' ministry or, less likely, to the beginning of the creation, so the verse is either irrelevant to our discussion or confirms the young-earth view. John 6:25, 15:27, and 16:4 are referring to the beginning of Jesus' ministry. Phil. 4:15 refers to the beginning of Paul's preaching in Philippi. Acts 26:4 refers to the beginning of Paul's life.

of creation (supposedly billions of years ago, according to conventional thinking) until the relatively recent past, what would be the point of saying there will be a time of human suffering unsurpassed by any other human suffering since the beginning of the cosmos (when no humans existed, according to old-earthers) until the very end? Jesus could have easily said “since the creation of man until now” or “since Adam,” if that is what He meant. His choice of words reflects His belief that man was there at the beginning and human suffering commenced essentially at the beginning of creation, not billions of years after the beginning. His Jewish listeners would have assumed this meaning in Jesus’ words, for Josephus’s history of the Jewish people indicates that the Jews of the first century believed that both the first day of creation and Adam’s creation were about 5,000 years before Christ.<sup>11</sup>

Since Matthew 24:21 is a parallel passage to Mark 13:19, Matthew’s wording “since the beginning of the world” (ἀπ’ ἀρχῆς κόσμου) must have the same meaning as ἀπ’ ἀρχῆς κτίσεως, with both accounts accurately reflecting what Jesus meant. While κόσμος (*kosmos*) sometimes refers to this sinful worldly system of man,<sup>12</sup> it often refers to the whole creation,<sup>13</sup> as in Matthew 24:21.

The foregoing evidence demonstrates that Jesus and the NT writers never use the phrase ἀπ’ ἀρχῆς to mean “beginning of the human race.” Most instances of ἀπ’ ἀρχῆς that refer to the ancient past mean the beginning of the whole creation starting in Genesis 1:1, thus supporting the young-earth interpretation of Mark 10:6 and 13:19.

An analysis of the commentary literature on Mark 10:6 and 13:19 yields four views of the phrases relevant to our study. Gundry and Morgan take the phrase in 10:6 to refer to the beginning of the whole creation (not merely the beginning of the human race or the beginning of marriage).<sup>14</sup> Cranfield says the phrase in 10:6 doesn’t necessarily mean the beginning of Genesis or the creation narrative, but he gives no justification for his view.<sup>15</sup> McKenna, Evans, and Wessel say the

11. See William Whiston, transl., *The Works of Josephus* (Peabody, MA: Hendrickson, 1987), p. 850; and Paul James-Griffiths, “Creation days and Orthodox Jewish Tradition,” *Creation* 26:2 (March 2004), p. 53–55, [www.answersingenesis.org/creation/v26/i2/tradition.asp](http://www.answersingenesis.org/creation/v26/i2/tradition.asp).

12. E.g., John 15:18–19, 16:33, 17:6, 17:14, 17:21, and 1 John 2:15–17.

13. E.g., Luke 9:25, John 1:10 (first two uses, cf. 1:3 — Jesus created the world, not the sinful system of man), 13:1 (cf. 6:38, 13:3, and 16:28 — Jesus was not just leaving the sinful world of humanity to be a hermit in the wilderness but leaving the world of time-space physical creation to return to the Father in heaven), John 17:5, 17:24, and Acts 17:24.

14. Robert H. Gundry, *Mark* (Grand Rapids, MI: Eerdmans, 1993); and G. Campbell Morgan, *The Gospel According to Mark* (NY: Fleming Revell, 1927). Neither gives comment on 13:19.

15. C.E.B. Cranfield, *The Gospel According to St Mark: The Cambridge Greek Testament Commentary* (Cambridge: Cambridge Univ. Press, 1959). He makes no comment on 13:19.

phrases refer to the beginning of human history but present no argument for their conclusion.<sup>16</sup> France asserts simply that the phrase in 10:6 refers to “the period before the Fall.”<sup>17</sup>

Garland, Lenski, Cole, Gould, Lane, Hare, Edwards, Hendricksen, Brooks, Moule, and Wessel make no comment on these verses, or at least not on the phrases related to the age of the earth, or their comments are too vague to determine what they believed regarding our question.<sup>18</sup>

It is also noteworthy that the most respected Greek lexicon concurs with the young-earth interpretation of Mark 10:6 and 13:19 in its entries for ἀρχῆ and κτίσις (especially since the compilers are not evangelicals).<sup>19</sup>

3. *Luke 11:50–51* “. . . so that the blood of all the prophets, shed since the foundation of the world, may be charged against this generation, from the blood of Abel to the blood of Zechariah, who was killed between the altar and the house of God; yes, I tell you, it shall be charged against this generation.”

16. David L. McKenna, *The Communicator's Commentary: Mark* (Waco, TX: Word, 1982); Craig A. Evans, *Word Biblical Commentary: Mark 8:27–16:20* (Nashville, TN: Thomas Nelson, 2001); and Walter W. Wessel, *Mark: The Expositor's Bible Commentary*, Vol. 8 (Grand Rapids, MI: Zondervan, 1984).
  17. R.T. France, *The Gospel of Mark* (Grand Rapids, MI: Eerdmans, 2002). He makes no comment on 13:19.
  18. David E. Garland, *Mark: The NIV Application Commentary* (Grand Rapids, MI: Zondervan, 1996); R.C.H. Lenski, *The Interpretation of St. Mark's Gospel* (Minneapolis, MN: Augsburg, 1946); R. Alan Cole, *Mark: Tyndale New Testament Commentaries* (Grand Rapids, MI: Eerdmans, 1983); and Ezra P. Gould, *Gospel According to St. Mark: The International Critical Commentary* (Edinburgh: T&T Clark, 1896). On 10:6, Gould only says that “Jesus goes back from the Mosaic Law to the original constitution of things,” which would lend support to the YEC view. William L. Lane, *The Gospel of Mark: The New International Commentary on the New Testament* (Grand Rapids, MI: Eerdmans, 1974), does not comment on the phrase in 10:6. On 13:19, he only says that it “is virtually a citation of Dan. 12:1” (p. 471), which is an exaggeration. While the verses are similar, the wording is notably different. Daniel speaks of a time of trouble such as never has been “since there was a nation” whereas Jesus says “since the beginning of creation.” See also Douglas R. A. Hare, *Mark* (Louisville, KY: Westminster John Knox Press, 1996); James R. Edwards, *The Gospel according to Mark* (Grand Rapids, MI: Eerdmans, 2002); William Hendricksen, *New Testament Commentary: Exposition of the Gospel According to Mark* (Grand Rapids, MI: Baker, 1975); James A. Brooks, *The New American Commentary: Mark* (Nashville, TN: Broadman Press, 1991); C.F.D. Moule, *The Gospel According to Mark* (Cambridge: CUP, 1965); and Walter W. Wessel, *Mark: The Expositor's Bible Commentary*, Vol. 8 (Grand Rapids, MI: Zondervan, 1984).
  19. Walter Bauer, Frederick W. Danker, William F. Arndt, and F. Wilbur Gingrich, *A Greek-English Lexicon of the New Testament* (Chicago, IL: University of Chicago Press, 1979, 2nd ed.), p. 112 and 456, and the 3rd edition (2000), p. 138 and 573.

This statement of Jesus contains the phrase “foundation of the world.” The phrase is used ten times in the New Testament: seven times it is preceded by “from” (ἀπό) and the other three times by “before” (πρό).

In addition to Luke 11:50, the phrase “from the foundation of the world” (ἀπό καταβολῆς κόσμου) also appears in Matthew 13:35 and 25:34, Hebrews 4:3 and 9:26, and Revelation 13:8 and 17:8. In Hebrew 4:3, the writer says God’s creation “works were finished from the foundation of the world.” Verse 4 says that “God rested on the seventh day from His works.” The two statements are clearly synonymous: God finished and rested at the same time. This implies that the seventh day (when God finished creating, Gen. 2:1–3) was the end of the foundation period. So, the foundation does not refer simply to the first moment or first day of creation week, but to the whole week.<sup>20</sup> The context, grammar, and lexical evidence in Matthew 13:35 and 25:34, Hebrews 9:26, Revelation 13:8 and 17:8 do not support any alternative sense of the phrase ἀπό καταβολῆς κόσμου, particularly the restricted meaning “foundation or beginning of the human race.” Since the previous uses of “foundation of the world” include the beginning of creation in Genesis 1:1, we have grounds for concluding that the phrase in these latter verses also refers to the very beginning of creation.

In Luke 11:50–51, “the blood of all the prophets, shed since the foundation of the world” (ἀπό καταβολῆς κόσμου) is juxtaposed with the statement “from the blood of Abel” (ἀπό αἵματος Ἀβελ). The parallelism in these two verses is clear: “blood” in both verses, the two temporal phrases beginning with ἀπό (from or since), and repetition of “charged against this generation.” This strongly suggests that Jesus believed that Abel lived very near the foundation of the world.

The phrase, “before the foundation of the world” (πρό καταβολῆς κόσμου), appears in John 17:24, Ephesians 1:4, and 1 Peter 1:20. In John 17:24 the sense “before the beginning of all creation” (not merely before the creation of man) best fits the context,<sup>21</sup> for the Father loved the Son eternally before the creation of the heaven and the earth in Genesis 1:1 (“before the world<sup>22</sup> was,” John 17:5;

20. Heb 1:10 confirms this when it tells us that “in the beginning” God “laid the foundation of the earth” (τὴν γῆν ἐθεμελίωσας literally “founded or established the earth”) and “the heavens are the works of His hands,” all of which occurred before Adam was made.

21. Those who think this phrase in John 17:5 and 24 refers to the beginning of the whole creation include D.A. Carson, *The Gospel According to John* (Grand Rapids, MI: Eerdmans, 1991); Leon Morris, *The Gospel According to John* (Grand Rapids, MI: Eerdmans, 1971); George R. Beasley-Murray, *John* (Dallas, TX: Word, 1987); R.V.G. Tasker, *John* (Grand Rapids, MI: Eerdmans, 1983); and Roger L. Fredrikson, *John* (Waco, TX: Word, 1985). See also the great 18th century Bible scholar: John Gill, *An Exposition on the New Testament* (London: George Keith, 1774–76).

22. In John 1:9–10, we are told that Jesus came into the world and was in the world that He made. Clearly, in John 1 Jesus is the maker of everything, not simply the human race, and He came into the physical world from His pre-incarnate spiritual life in heaven. In John 11:27, Martha says that she knew Jesus was the Son of God who comes into the world. It is doubtful that she was thinking and meaning anything different than

compare Colossians 1:16–17 for similar teaching). Similarly, given the nature of the foreknowledge of God, we can be certain that in Ephesians 1:4 Paul meant that God chose believers in Christ before anything was created, not just before the first two humans were made.<sup>23</sup> Undoubtedly in 1 Peter 1:20, Peter also meant that Christ was foreknown by the Father before the creation of the earth (and therefore before the creation of anything else, since the earth was created first with the empty heavens). So, in these cases, “foundation of the world” refers to the whole creation week (Gen. 1).

The majority of Lukan commentators do not comment on our phrases under consideration.<sup>24</sup> Marshall’s only relevant remark is that ἀπὸ καταβολῆς (from the foundation) is always used in the NT to refer to the beginning of the world.<sup>25</sup> Similarly, Lenski comments that our phrase “implies that God laid that foundation when he called the world into being, and the phrase is used to denote the beginning of time.”<sup>26</sup> Both comments support the young-earth interpretation.

Hendriksen says that “the reason why Jesus says ‘from Abel to Zechariah’ is that according to the arrangement of the books in the Hebrew Bible Genesis (hence ‘Abel’) comes first; Chronicles (hence ‘Zechariah’) last.”<sup>27</sup> However, the verses are not referring to the books of Scripture, but rather to people.

---

Jesus did with this language. So “world” (κοσμος) in these verses, as in 17:5, 17:24, and Acts 17:24, is clearly referring to the whole creation, not simply humanity or even the sinful worldly system.

23. See Paul’s similar teaching in 2 Timothy 1:9 and Titus 1:2 (NIV and KJV are accurate translations of the time phrase, whereas NAS is not).
24. Alfred Plummer, *Gospel According to S. Luke: The International Critical Commentary* (Edinburgh: T&T Clark, 1901); John Nolland, *Word Biblical Commentary: Luke 9:21–18:34* (Dallas, TX: Word, 1993); Darrell L. Bock, *Luke: The NIV Application Commentary* (Grand Rapids, MI: Zondervan, 1996); Darrell L. Bock, *Luke, Vol 2: 9:51–24:53* (Grand Rapids, MI: Baker, 1996); Walter L. 25. I. Howard Marshall, *The Gospel of Luke: NIGTC* (Grand Rapids, MI: Eerdmans, 1995), p. 505. He does give one exception to this general statement: Heb. 11:11. But this reference is wrong and probably should read Heb. 11:10.
26. R.C.H. Lenski, *The Interpretation of St. Luke’s Gospel* (Minneapolis, MN: Augsburg Publ., 1946).
27. William Hendriksen, *New Testament Commentary: Exposition of the Gospel According to Luke* (Grand Rapids, MI: Baker, 1978).

Furthermore, scholars are not in agreement about which Zechariah this was in history or about when the present order of the OT books became canonical. Furthermore, Jesus does not say “from Abel to Zechariah,” but rather “from the blood of Abel to the blood of Zechariah.” The emphasis is on the death of the first and last OT prophets.

Most of the commentators on Mark and Luke are silent on our phrases in these verses. Of those who do comment, many support the young-earth interpretation. The others make assertions without offering an argument for their interpretation. Or the argumentation given does not overturn the conclusions of my analysis above.

### Preliminary Conclusion about Jesus’ View of the Age of the Earth

From the study of these Jesus AGE verses we see that Jesus believed and taught that man has existed essentially as long as the entire cosmos has. Given His evident belief in the literal historical truth of all of Genesis 1–11 and the historical reliability of the rest of the OT (including its chronological information such as contained in the genealogies of Genesis 5 and 11), we have strong grounds to conclude that He believed in a literal six-day creation week which occurred only a few thousand years ago. No other understanding adequately accounts for the Jesus AGE verses and His approach to the historicity of Genesis.

But, as I will seek to demonstrate below, the vast majority of Christian old-earth proponents have not taken into account the Jesus AGE verses. The arguments of the few who have commented on them lack cogency, are inherently self-contradictory, fail to deal with all the evidence, or are inconsistent with the evidence.

### Young-earth Creationist References to the Jesus AGE Verses

For decades, young-earth creationist writers have cited these verses in articles and books in defense of the earth being only thousands of years old, emphasizing that the statements of Jesus show that Adam could not have been created billions of years after the beginning, as all old-earth views maintain.<sup>28</sup> Most of these

28. Henry Morris, “Christ and the Time of Creation” (*Back to Genesis*, No. 70), *Acts and Facts* (ICR, Oct. 1994), a-b (cites all three Jesus AGE verses); Henry Morris, “The Bible and Jesus Christ” (*Back to Genesis*, No. 125), *Acts and Facts* (ICR, May 1999), c (all three verses); Charles Taylor, “Jesus on Creation,” *Creation Ex Nihilo*, 20/2 (March–May 1998), p. 55 (cites Mark 10:6), [www.answersingenesis.org/creation/v20/i2/creation.asp](http://www.answersingenesis.org/creation/v20/i2/creation.asp); Henry Morris, *Scientific Creationism* (San Diego, CA: Creation-Life Pub., 1974), p. 246 (cites Mark 13:19); Henry Morris, *King of Creation* (San Diego, CA: CLP Publishers, 1980), p. 54 (cites Mark 10:6); Henry Morris, *The Biblical Basis of Modern Science* (Grand Rapids, MI: Baker, 1984), p. 113 & 392 (cites Mark 10:6); Henry Morris, *Biblical Creationism* (Grand Rapids, MI: Baker, 1993), p. 148 (cites Mark 10:6, 13:19) and 151 (cites Luke 11:50–51); Henry Morris & John Morris, *The Modern Creation Trilogy* (Green Forest, AR: Master Books, 1996), vol. 1, p. 79–80, 140, 151 & 214 (cites all three verses);

creationist books are still in print.<sup>29</sup> It would appear that either old-earthers are not reading the young-earth literature, as they tell the Church that young-earth creationists are wrong about the age of the earth and about the importance of the subject, or the old-earth proponents are simply overlooking the point being made by young-earthers from the teaching of Jesus on this matter.

Some of the early 19th century defenders of young-earth creationism (called “scriptural geologists”) also used these statements of Jesus as they resisted the idea of millions of years that was engulfing geology at that time.<sup>30</sup> In 1834, the Anglican minister Henry Cole argued this way from Mark 13:19:

Now, is there a geologizing mortal upon Earth who will assert, that the Redeemer is here speaking of “afflictions” experienced by a world of creatures, who lived in a mighty space between “the beginning,” and the present race of mankind? Will any geological sceptic, we repeat, dare aver, that our Lord is here referring to a race of beings of whom his disciples had never heard, and whose existence was never known to men or saints, till discovered by wondrous Geologists in the nineteenth

---

John Whitcomb, *The Early Earth* (Grand Rapids, MI: Baker, 1986), p. 36 (cites all three verses); Jobe Martin, *The Evolution of a Creationist* (Rockwall, TX: Biblical Discipleship Publishers, 2002), p. 28–29 (cites Mark 10:6); Douglas Kelly, *Creation and Change* (UK: Mentor, 1999), p. 129–134 (refers to or quotes all the Jesus AGE verses (along with all the other NT verses relevant to the interpretation of Gen. 1-11 and concludes that they indicate nothing “other than the literal, chronological understanding of the six days of creation and the succeeding patriarchal history”); Sid Dyer, “The New Testament Doctrine of Creation,” in Joseph Pipa and David Hall, eds., *Did God Create in Six Days?* (Taylors, SC: Southern Presbyterian Press, 1999), p. 222–223 (cites all three verses); Bert Thompson, *Theistic Evolution* (Shreveport, LA: Lambert Book House, 1977), p. 227 (cites Mark 10:6); and Travis Richard Freeman, “The Chronological Value of Genesis 5 and 11 in Light of Recent Biblical Investigation” (PhD thesis, Southwestern Baptist Theological Seminary, 1998), p. 159 and 184 (cites Mark 10:6).

For an Eastern Orthodox perspective, see Fr. Seraphim Rose, *Genesis, Creation and Early Man* (Platina, CA: Saint Herman of Alaska Brotherhood, 2000), p. 150 (cites Mark 10:6) & 228 (cites Luke 11:50–51). In both cases in Rose’s work the comments are in the editor’s footnotes. This work documents through lengthy quotations that the young-earth view was the unanimous belief of Eastern Orthodox “Church Fathers” until the advent of old-earth evolutionary ideas in the 19th century. See my review of this important book: “Orthodoxy and Genesis: What the fathers really taught,” *TJ*, Vol. 16/3 (2002) p. 48–53, [www.answersingenesis.org/home/area/magazines/tj/docs/v16n3\\_mortenson.asp](http://www.answersingenesis.org/home/area/magazines/tj/docs/v16n3_mortenson.asp).

29. Two of the most prominent young-earth creationists for many years have been Henry Morris and John Whitcomb.
30. See Terry Mortenson, *The Great Turning Point: the Church’s Catastrophic Mistake on Geology — Before Darwin* (Green Forest, AR: Master Books, 2004).

century! Must not every scientific, unless he violate every remnant of natural understanding, honesty, and conscience, confess that the Saviour is here speaking to sons of men of the “afflictions” of the same sons of men which have been from the beginning of the Creation of this world? Then, here is the creation of man immediately, manifestly, and undeniably, connected with “the beginning”!<sup>31</sup>

But the early 19th century Christian old-earth proponents largely ignored the Genesis text and all of them overlooked the Jesus AGE verses, as they told the church to accept millions of years and to regard the age of the earth as unimportant. As will be seen, old-earth proponents continue to do this.

As part of a thorough survey of evangelical scholarly literature addressing the age of the earth, we consider first commentaries on Genesis, then systematic theology texts, and finally a variety of other scholarly or popular-level books that discuss the issue.

## Commentaries on Genesis Regarding the Jesus AGE Verses

### 1. Young-earth Creationist Commentaries on Genesis

Morris, MacArthur, and Leupold refer to at least one of the Jesus AGE verses to argue for the historicity of Genesis 1–11.<sup>32</sup> This supports their young-earth conclusions about Genesis, although they do not explicitly make the point from these verses about Jesus believing in a young earth. However, Morris’s study Bible, *The Defender’s Bible* (Grand Rapids, MI: World, 1995) is explicit on this point.<sup>33</sup> Rice says nothing about the Jesus AGE verses.<sup>34</sup>

- 
31. Henry Cole, *Popular Geology Subversive of Divine Revelation* (London: J. Hatchard & Son, 1834), p. 46–47. See also George Bugg, *Scriptural Geology* (London: L.B. Seeley & Son, 1826–27), vol 1, p. 108 (uses Mark 10:6). For a summary of Cole’s and Bugg’s lives and objections to old-earth geology, see my published articles at [www.answersingenesis.org/home/area/magazines/tj/docs/tjv13n1\\_cole.asp](http://www.answersingenesis.org/home/area/magazines/tj/docs/tjv13n1_cole.asp) and [www.answersingenesis.org/home/area/magazines/tj/docs/tjv12n2\\_george\\_bugg.asp](http://www.answersingenesis.org/home/area/magazines/tj/docs/tjv12n2_george_bugg.asp).
  32. Henry Morris, *The Genesis Record* (Grand Rapids, MI: Baker, 1987), p. 103 (Mark 10:6). John MacArthur, *The Battle for the Beginning* (Nashville, TN: Thomas Nelson, 2001), p. 24, references Mark 13:19 in arguing that the New Testament speaks of creation as a past, completed event. H.C. Leupold, *Exposition of Genesis* (Grand Rapids, MI: Baker, 1942, Vol. 1), p. 36, cites Matthew 19:4–6 (parallel of Mark 10:5–9) in arguing that Genesis 1 is “pure history.” But he does not discuss the Jesus AGE verses either in Genesis 1 or in his expositions on Genesis 5 and 11.
  33. He has notes on Matthew 19:4 (explaining that Jesus took Genesis as literal history), Mark 10:6 (emphasizing that Jesus was a young-earth creationist), Mark 13:19 (mentioning young-earth implications and showing that “beginning of creation” is synonymous with “beginning of the world” in the parallel passage of Matthew 24:21), and Luke 11:50 (pointing out that Abel was at the foundation of the world, not four billion years after the formation of the earth).
  34. John R. Rice, *In the Beginning* (Murfreesboro, TN: Sword of the Lord, 1975). The

## 2. Old-earth Creationist Commentaries on Genesis

Almost all Genesis commentaries by old-earth proponents that I examined apparently overlooked the Jesus AGE verses (most also show little, if any, acquaintance with young-earth literature). These include Kenneth Mathews, John Walton, Bruce Waltke, J. Vernon McGee, Warren Wiersbe, John Sailhamer, Allen Ross, Arthur Pink, Ronald Youngblood, Gordon Wenham, and Griffith Thomas.<sup>35</sup> Space precludes detailed comment on them. However, James Boice's commentary is worthy of brief discussion because (1) he does refer to some of the Jesus AGE verses, and (2) his lack of careful reflection on the issue of the age of the earth is symptomatic of the above commentaries.

In the chapter entitled "Fact or Fiction?" (a question about Genesis which Boice fails to answer clearly), he has a sub-section called "The Teaching of Jesus." Boice there says that, "A special aspect of the attitude of Scripture to Genesis is the teaching of Jesus Christ. This obviously carries special weight. . . . it is surely of interest to those who profess to follow Jesus as their Lord to know what He said. His teaching has special weight if only because we revere the Lord highly."<sup>36</sup> Yes, indeed! How sad then to see that Boice discusses Matthew 19:3–6 but not the parallel passage in Mark 10:2–6, which shows Jesus to be a young-earth creationist. Boice quotes a small part of Mark 13:19 to say that God created. But he does not quote the rest of the verse, which is so relevant to the age of the earth, and he does not comment on Luke 11:50–51. Is this giving special weight to Jesus' teaching on this subject?

Boice rejects theistic evolution, but he also rejects the Flood as the cause of most of the fossil record. He has doubts about the gap theory, and sees problems with the

---

book claims to give detailed studies on creation vs. evolution, the Flood, etc. It strongly recommends Whitcomb and Morris's *The Genesis Flood*. He argues extensively that the gap and day-age theories are unbiblical and believes that rocks and fossils are the evidence of the Flood, not millions of years. But he does not refer to the apostolic evidence for the historicity of Genesis 1–11 or to the Jesus AGE verses.

35. Kenneth A. Mathews, *Genesis 1–11:26: The New American Commentary* (Broadman and Holman, 1996); John H. Walton, *Genesis: The NIV Application Commentary* (Grand Rapids, MI: Zondervan, 2001); Bruce K Waltke, *Genesis* (Grand Rapids, MI: Zondervan, 2001), p. 31; J. Vernon McGee, *Genesis* (Nashville, TN: Thomas Nelson, 1991), p. 60–61 and 133. Warren W. Wiersbe, *Be Basic: An Old Testament Study —Genesis 1–11* (Colorado Springs, CO: Victor, 1998), is uncertain of the age of the creation, but clearly believes it is millions of years. John H. Sailhamer, *Genesis, Expositor's Bible Commentary, vol. 2* (Grand Rapids, MI: Zondervan, 1990); Allen P. Ross, *Creation and Blessing* (Grand Rapids, MI: Baker, 1998); Arthur W. Pink, *Gleanings in Genesis* (Chicago, IL: Moody Press, 1922); Ronald Youngblood, *The Book of Genesis* (Grand Rapids, MI: Baker, 1991, 2nd ed.); Gordon Wenham, *Genesis 1–15* (Milton Keynes, UK: Word, 1991); and W.H. Griffith Thomas (1861–1924, principal of Wycliffe Hall, Oxford), *Genesis 1–25:10* (London: Religious Tract Society, 5th ed., no date).
36. James M. Boice, *Genesis, Volume 1 Genesis 1;1–11:32* (Grand Rapids, MI: Zondervan, 1982), p. 21.

day-age view and framework hypothesis. So he is not sure how to harmonize the Bible with millions of years. In his brief discussion of young-earth creationism's handling of Genesis 1–2, Boice uses quotes from Whitcomb and Morris's *The Genesis Flood* to summarize the view. He then gives several points that should guide one's evaluation of young-earth creationism. He says, "First, there is the concern for biblical teaching. More than this, creationists want to make biblical teaching determinative."<sup>37</sup> Boice is correct, and such a hermeneutic is the necessary corollary of the doctrine of inspiration. Whatever God says should always be determinative for the believer, regardless of the views of other supposed sources of authoritative truth that contradict God's Word. Boice quickly adds that "we have to admit here that the exegetical basis of the creationist is strong."<sup>38</sup> But, as his discussion continues, he reveals that the only reason he rejects the young-earth creationists' sound exegesis is because so-called "science" confidently asserts that the creation is billions of years old.<sup>39</sup> What happened to the authoritative teaching of Jesus, which Boice says is so determinative?

### Systematic Theology Texts Regarding the Jesus AGE Verses

#### 1. Young-earth Creationist Systematic Theology Texts

In his discussion on creation, Berkhof argues for literal days and against the gap and day-age views.<sup>40</sup> He does not explicitly state his view on the age of the earth, but uses Exodus 20:11 in defense of his view, rejects theistic evolution, rejects human evolution, and seems to reject old-earth geology.<sup>41</sup> However, he does not refer to the Jesus AGE verses, except to affirm (by reference to Mark 10:6) that the creation had a beginning.<sup>42</sup> Ryrie refers only to Luke 11:51, and then merely in relation to Jesus' view of the extent of the OT canon.<sup>43</sup> Raymond lists many OT and NT references (including Luke 11:51) to support his contention that Genesis 1–11 is reliable history and he refers to Mark 10:6 when he states that "to question the basic historical authenticity and integrity of Genesis 1–11 is to assault the integrity of Christ's own teaching."<sup>44</sup>

#### 2. Old-earth Systematic Theology Texts

For the most part, systematic theology texts written by old-earth proponents also overlook the Jesus AGE verses. If they do refer to the verses, they do

41. *Ibid.*, p. 181–188.

42. *Ibid.*, p. 130.

43. Charles Ryrie, *Basic Theology* (Chicago, IL: Moody, 1986), p. 122.

44. Robert L. Raymond, *A New Systematic Theology of The Christian Faith* (Nashville, TN: Thomas Nelson, 1998), p. 118.

not comment on the implications for the age of the earth. I carefully examined the relevant discussions of Hodge, Feinberg, Thiessen, Erickson, Buswell, and Henry.<sup>45</sup> I will comment on two other texts as representative.

Lewis and Demarest discuss the origin of the world and humanity in their 1996 theology text. In numerous statements, they badly misrepresent the young-earth view,<sup>46</sup> which is not surprising since they do not demonstrate any familiarity with the recent creationist literature (but refer to much recent old-earth literature). It would appear that they did not even read carefully the two older books by Henry Morris (published in 1974 and 1984, respectively), which they cite and both of which refer to the Jesus AGE verses.<sup>47</sup> They argue for the day-age view, concluding that “ultimately, responsible geology must determine the length of the Genesis days.”<sup>48</sup> What happened to the principle of Scripture interpreting Scripture? They do refer to Mark 10:6, 13:19 and Luke 11:51, and affirm that “Jesus clearly endorsed the validity of the Old Testament creation

---

45. Charles Hodge, *Systematic Theology* (Grand Rapids, MI: Eerdmans, 1997, reprint of 1871–73 original), Genesis and geology are discussed in vol. 1, p.570–574 and the antiquity of man in vol. 2, p.33–39; John S. Feinberg, *No One Like Him* (Wheaton, IL: Crossways Books, 2001), p. 537–624; Henry Thiessen, *Lectures in Systematic Theology* (Grand Rapids, MI: Eerdmans, 1949); Millard Erickson, *Christian Theology* (Grand Rapids, MI: Baker, 1985), p. 367–373; James Oliver Buswell, *A Systematic Theology of the Christian Religion* (Grand Rapids, MI: Zondervan, 1962); Carl F. H. Henry, *God, Revelation and Authority, Vol. VI* (Waco, TX: Word, 1983).

46. Gordon R. Lewis and Bruce A. Demarest, *Integrative Theology* (Grand Rapids, MI: Zondervan, 1996), vol. 2. Under the discussion on the young-earth view, there are several misrepresentations on page 23. They equate “catastrophism” (which is still evolutionary and old-earth) with “flood geology” (which is young-earth in perspective). They falsely accuse young-earthers of believing that “all” the strata, fossils, volcanic activity, and mountain formations were caused by the Flood (informed young-earthers are always careful to say “most”). They say that young-earthers reject “the findings of astronomy and geology,” whereas it is the *naturalistic interpretations* of the observational evidence that young-earthers reject. They also say that young-earthers regard “the absence of any developmental mechanisms as essential to theological orthodoxy” and refer the reader to an article by Pattle Pun in the *Evangelical Dictionary of Theology* (p. 390). Pun’s article further distorts the young-earth view by saying that young-earthers “ignore the vast amount of data supporting the observable micro-evolutionary processes in nature and the laboratory.” In fact, informed young-earth creationists have always believed in “micro-evolutionary” changes due to natural selection and mutations, but they have denied (with supporting arguments) that such changes have any value as evidence in favor of amoeba-to-man “macroevolution.” Similarly, Lewis and Demarest assert on page 47 that young-earthers believe that the Flood “accounts for all the observable geological evidence by observable evidence from *all areas universally*” [emphasis added at the points of misrepresentation].

47. See their footnotes 61 and 67 to chapter 1 of vol. 2 on page 499.

48. *Ibid.*, p. 29.

doctrine”<sup>49</sup> and that “the Lord Jesus Christ and his apostles who wrote the New Testament by the Spirit’s inspiration understood the early chapters of Genesis to be informative.”<sup>50</sup> However, it is not clear what “endorsed the validity” and “informative” in these statements are meant to convey regarding the truthfulness or proper interpretation of Genesis 1–11. In any case, Lewis and Demarest apparently have failed to grasp the implications of Jesus’ words for their view of the age of the earth.

In his *Systematic Theology* Grudem deals with Mark 10:6, but not Mark 13:19 or Luke 11:51. His attempted refutation of the young-earth reasoning from Mark 10:6 is one sentence: “This argument also has some force, but old-Earth advocates may respond that Jesus is just referring to the whole of Genesis 1–2 as the ‘beginning of creation,’ in contrast to the argument from the laws given by Moses that the Pharisees were depending on (v. 4).”<sup>51</sup> This objection makes little sense; it actually affirms that Adam and Eve were indeed at the beginning of creation, not billions of years after the beginning, just as young-earthers contend. In any case, whatever statements in Deuteronomy 24 the Pharisees were relying on is irrelevant to Jesus’ statement and belief about when Adam and Eve were created. Furthermore, Grudem apparently *imagines* how old-earth advocates *might* evade the force of this young-earth argument, but he does not cite and I do not know of any old-earth proponent who has *actually* reasoned the way Grudem suggests. So, the young-earth argument from Mark 10:6 has more than just “some force.”

### Other Old-earth Writings Regarding the Jesus AGE Verses

The following authors either promote or at least accept belief in millions of years: Snoke, Arnold, Lucas, Forster and Marston, Ramm, Cabal, and Kaiser.<sup>52</sup>

49. *Ibid.*, p. 33.

50. *Ibid.*, p. 39.

51. Wayne Grudem, *Systematic Theology* (Grand Rapids, MI: Zondervan, 1994), p. 297.

52. David Snoke, *A Biblical Case for an Old Earth* (Hatfield, PA: Interdisciplinary Biblical Research Institute, 1998). As a day-age proponent, Snoke is an elder in a Presbyterian church and PhD Asst. Prof. of Physics and Astronomy, Univ. of Penn. IBRI is an influential group among evangelical academics and has produced a number of books strongly opposed to the young-earth view. Bill Arnold, *Encountering the Book of Genesis* (Grand Rapids, MI: Baker, 1998) favors either day-age or framework view. Ernest Lucas, *Genesis Today* (London: Scripture Union, 1989), is a professing evangelical and a theistic evolutionist. He has a PhD in chemistry, has been a pastor and is currently vice-principal and tutor in biblical studies at Bristol Baptist College in England. Roger Forster and Paul V. Marston, *Reason and Faith* (Eastbourne, UK: Monarch, 1989), and their revised second edition: *Reason, Science and Faith* (Crowborough, UK: Monarch Books, 1999); Bernard Ramm, *The Christian View of Science and Scripture* (Grand Rapids, MI: Eerdmans, 1955); Ted Cabal, “Evangelicalism and Young-Earth Creationism: Necessary Bedfellows?” a paper given at the annual meeting of ETS in Colorado Springs in 2001 (his paper answers the title question in the negative; Walter C. Kaiser, *Toward an Old Testament Theology* (Grand Rapids, MI: Zondervan, 1978); Walter C. Kaiser,

So do Newman and Eckelmann, E.J. Young, Harris, Mark Ross, Moreland, Scofield, Orr, Hague, Wright, and Mauro, Davis Young, Snow, and Stek.<sup>53</sup> So also do Bradley and Olsen, Blocher, Hugh Ross, Howard Vos, Free, Archer, Sailhamer, Warfield, and Kline.<sup>54</sup> But none of these scholars interact with the

---

*The Old Testament Documents: Are They Reliable and Relevant?* (Downers Grove, IL: IVP Press, 2001); and Walter C. Kaiser et al, *Hard Sayings of the Bible* (Downers Grove, IL: IVP Press, 1996). Kaiser favors the day-age view.

53. Robert C. Newman and Herman J. Eckelmann, *Genesis One and the Origin of the Earth* (Hatfield, PA: IBRI, 1977), advocate the day-gap-day view. E.J. Young, *Studies in Genesis One* (Phillipsburg, NJ: P&R Publ., 1964), wonderfully defends the full historicity of Genesis 1 (and refutes the framework hypothesis) and contends that the days of creation were chronologically sequential (non-overlapping), but he states “The Bible does not state how old the earth is,” and “the length of the days is not stated” (p. 102 and 104). R. Laird Harris, “The Length of the Creative Days in Genesis 1,” in Pipa and Hall, *Did God Create*, p. 101–111; Mark Ross, “The Framework Hypothesis: An Interpretation of Genesis 1:1–2:3” in Pipa and Hall, *Did God Create*, p. 113–130; J.P. Moreland, *Scaling the Secular City* (Grand Rapids, MI: Baker, 1998). For further critique of Moreland’s uncharacteristically superficial comments about the age of the earth, see Ken Ham, Carl Wieland, and Terry Mortenson, “Are (Biblical) Creationists ‘Cornered’? — A Response to Dr. J.P. Moreland,” *TJ*, 17:3 (2003), p. 43–50, [www.answersingenesis.org/docs2003/1001cornered.asp](http://www.answersingenesis.org/docs2003/1001cornered.asp). C.I. Scofield, ed., *The Holy Bible* (Lake Wylie, SC: Christian Heritage Publ., 1994 reprint of 1917 second edition). The writings of Orr, Hague, Wright, and Mauro are in R.A. Torrey, ed., *The Fundamentals* (Grand Rapids, MI: Kregel, 1990). Davis A. Young, *Christianity and the Age of the Earth* (Grand Rapids, MI: Zondervan, 1982). In Howard Van Til et al., eds., *Portraits of Creation* (Grand Rapids, MI: Eerdmans, 1990), Young says nothing about the Jesus AGE verses in his chapter on the perceived tensions between biblical and evolutionary cosmogonies, nor does Robert Snow in his chapter criticizing the creation science movement, nor does John Stek in his chapter on “What Says the Scriptures?”
54. Walter Bradley and Roger Olsen, “The Trustworthiness of Scripture in Areas Relating to Natural Science,” in Earl Radmacher and Robert Preus, eds., *Hermeneutics, Inerrancy and the Bible* (Grand Rapids, MI: Zondervan, 1984), p. 285–317. Henri Blocher, *In the Beginning* (Downers Grove, IL: IVP Press, 1984), advocates the framework hypothesis. Hugh Ross, *The Genesis Question* (Colorado Springs, CO: NavPress, 1998) and *Creation and Time* (Colorado Springs, CO: NavPress, 1994). For a thorough critique of Ross’ teachings on creation and the age of the earth see Jonathan Sarfati’s *Refuting Compromise* (Green Forest, AR: Master Books, 2004). Howard Vos, *Genesis* (Chicago, IL: Moody Press, 1982); Joseph P. Free and Howard F. Jesus AGE verses and most of them do not consider at all the New Testament teaching relevant to the correct interpretation of Genesis 1–11. Other authors who do the same deserve some comment. Their handling of Scripture on this subject is illustrative of the works above.

In *Evolution and the Authority of the Bible*, Nigel Cameron presents some strong arguments in favor of the young-earth view, although he does not explicitly endorse it. He considers Matthew 19:4 to be a “strong testimony to an historical reading of Genesis by Jesus himself.”<sup>55</sup> After discussing other relevant NT verses he concludes:

The New Testament view of the early chapters of Genesis, both as to the essentials (that Adam was a real man and that he really fell) and also as to certain details (such as the order of creation and Fall — Adam created first, Eve first to fall), is that an historical reading of the narrative is the appropriate one. . . . Evangelical Christians who desire to interpret Scripture faithfully will follow the New Testament writers in treating Genesis 2 and 3 as history. If they reject this reading, they do so at their peril.<sup>56</sup>

Cameron gives no reason for limiting his conclusion about historicity to Genesis 2–3, instead of applying it to all of Genesis 1–11. He seems to imply that the historicity and fall of Adam are the only essentials taught in the early chapters of Genesis and that only “certain details” (of the order of creation and fall of Adam and Eve) are important, straightforwardly clear and trustworthy, but that the details about creation in six days, the global Flood, and the genealogies of Genesis 5 and 11 are not. He fails to provide any rationale for such a selective reading of the details of the text. The New Testament writers clearly indicate that they treated all those chapters (and their details) as literal history. Is it not also to our peril, if we reject or ignore the *details* of the creation narrative or the Flood account? And should we not consider Jesus’ view on these matters, as well as the views of the NT writers? Cameron has not heeded his own very appropriate warning.

Given Cameron’s affirmation of the authority of Scripture, I wanted to find out more about his views after reading his 2001 email to a colleague of mine, in which Cameron said this about his above-mentioned book: “I have long taken the view that it is open to us to be agnostic on the ‘alternative’ we put in place

56. *Ibid.*, p. 90–91.

of the standard evolution position. It's fair to say that when I wrote that book I was more sympathetic to the young-earth view than I am now, but I was not committed to it even then."<sup>57</sup> So in January 2004, I wrote Dr. Cameron to clarify his position on the age of the earth and whether he still held to the arguments presented in his book. He replied, "My position has all along been somewhat agnostic, and indeed I do not think we are obliged to come up with alternative scenarios. So I don't think my position has changed!"<sup>58</sup>

This is doubly perplexing when we note two more things. First, Cameron explains that the rapid, 19th-century compromise of the Church with millions of years was because "first in geology and then in biology . . . nineteenth century, biblical commentators hastened to accommodate their interpretation of Scripture to the latest orthodoxy in science."<sup>59</sup> Secondly, he gave a glowing endorsement (on the back cover) of Douglas Kelly's defense of young-earth creationism (which includes reference to the Jesus AGE verses and other NT references to Gen. 1–11), *Creation and Change* (1997), saying "A highly intelligent engagement with these crucial verses with which God declares himself to be a speaking God who is our maker. The discussion is scholarly but accessible, a model of the kind of exegetical theology which the church of our day needs." Surely, Cameron's inconsistent reasoning (revealed in his book, emails, and endorsement of Kelly's book) creates problems for our commitment to the authority of the Bible and of Jesus, our Lord, not to mention for our ability to articulate the gospel in an intellectually rigorous and coherent way to a skeptical world.

In *Genesis in Space and Time*, Francis Schaeffer says that the Bible "is a scientific textbook in the sense that where it touches the cosmos it is true, propositionally true" and "wherever it touches upon anything, it does so with true truth, but not with exhaustive truth. That is, where it speaks of the cosmos, science, what it says is true. Likewise, where it touches history, it speaks with that [sic] I call true truth, that is, propositional, objective truth."<sup>60</sup>

He argues that Genesis 1 and 2 are united descriptions of one creation account and he refers to Mark 10:6–8 to support that view.<sup>61</sup> He argues for the historicity (even the "historicity of the details") of the account of Adam and Eve<sup>62</sup> and the historicity of the Flood and even (rather weakly) defends it as being global.<sup>63</sup> However, he devotes merely one paragraph to the question of the

57. Cameron's email to my friend, dated Sept. 4, 2001, copy on file.

58. Cameron's email to me, dated Jan. 7, 2004, on file.

59. Cameron, *Evolution and Authority*, p. 72.

60. Francis Schaeffer, *Genesis in Space and Time* (Downers Grove, IL: IVPress, 1972), p. 35 (his emphasis) and 76.

61. *Ibid.*, p. 39–40.

62. *Ibid.*, p. 41–43.

63. *Ibid.*, 1p. 33–34. He shows no evidence of having read Whitcomb and Morris's *The Genesis Flood*, even though it was a landmark book that spawned the modern creationist movement and was published ten years earlier by Schaeffer's fellow Calvinists at Presbyterian and Reformed Press. *The Genesis Flood* deals not only with the extent of

length of days in Genesis 1, and only asserts that “day” (*yôm*) can mean a long period as well as a normal day and so “we must leave open the exact length of the time indicated by *day* in Genesis.”<sup>64</sup> He gives absolutely no exegesis to defend this view. Following the views of William Henry Green and B.B. Warfield, he briefly argues that the genealogies of Genesis 5 and 11 have gaps.<sup>65</sup> But nowhere does he discuss the verses showing Jesus to be a young-earth creationist.

In his *No Final Conflict* (1975) Schaeffer said this book should be studied with the above book as a unity.<sup>66</sup> But he says this book:

... deals with the *possibilities* open to us where the Bible touches science in the first chapters of Genesis — that is, the possibilities that exist if we hold to the historic Christian view that both the Old and New Testaments in their entirety are the written Word of God without error in all that they affirm about history and science as well as about religious matters.<sup>67</sup>

Schaeffer affirms the “space-time” historicity of Genesis 1–11 and unity of the whole book. In defending this he cites the *toledoths* in Genesis<sup>68</sup> and 14 New Testament verses. He says that “absolutely every place where the New Testament refers to the first half of Genesis, the New Testament assumes (and many times affirms) that Genesis is history and that it is to be read in normal fashion, with the common use of words and syntax.”<sup>69</sup> Nevertheless, although he rejects the gap theory, he does still allow it as a “theoretical possibility.”<sup>70</sup> He accepts the day-age view as possible, as well as the literal-day view, and says that he is not sure about the matter. He appears to lean toward a global Flood, but is hesitant about how to relate it to geological ages. And he accepts that animals could have died peacefully before the Fall, but that there would not have been violence and agonizing, cruel death (as in one animal chasing down another) before Adam’s sin. But he fails to mention and take account of the Jesus AGE verses. Failing to take account of them certainly makes it easier to accept Schaeffer’s *possibilities* for harmonizing the Bible and millions of years. But that is a serious oversight.

Geisler’s helpful encyclopedia of apologetics has three articles relevant to our discussion. In “Genesis, days of” (where he argues against young-earth

creationism) and “Genealogies, Open or Closed” (where he argues for gaps in the Genesis genealogies) he does not deal with the Jesus AGE verses.<sup>71</sup> In the article “Creation and Origins,” he does refer to and even quote Mark 10:6 and 13:19, but he uses them to state only that creation was a past singular event, rather than a continuing process.<sup>72</sup> However, this contradicts Geisler’s endorsement of Hugh Ross and the idea of millions of years, because the evolutionary astronomers and geologists (whom Ross relies on) argue for millions of years on the basis of *presently* observed physical and chemical processes going back in an unbroken sequence to the beginning of time. In other words, the evolutionists deny that the creation activities are different from present-day processes, in contrast to what Geisler (rightly) believes.

In a basic apologetics book, Geisler and Bocchino say that the order of creation in Genesis “does offer an extremely accurate account of the order of creation as compared to the discoveries of modern science” (i.e., of *evolutionary* cosmology and geology).<sup>73</sup> However, their supposedly wonderful harmonization fails to mention the creation of the birds, sun, moon, or stars!<sup>74</sup> So, once again we see a lack of careful attention to the biblical text. They tell their readers that they will not deal with the technical Hebrew details to defend their old-earth view. But they do not say where such details are discussed and unfortunately they fail to reckon with the Jesus AGE verses and the other NT teaching germane to the age of the creation. Nevertheless, they do urge their young-earth readers to “stop the infighting over the question of age” because “many sincerely honest and intellectually gifted scholars” argue for an old earth.<sup>75</sup> Unfortunately, neither sincerity, nor honesty, nor intellectual giftedness, separately or combined, ensures correct (biblical) thinking, and history affords many examples of times when many, or even the majority of, scholars were wrong.<sup>76</sup>

75. *Ibid.*, p. 175, fn. 6.

76. For example, Athanasius was exiled five times before he almost single-handedly convinced the majority that Arius’ view of the nature of Christ was wrong. Most of the visible Church was wrong about the doctrines of salvation and indulgences at the time of Martin Luther’s conversion. Most scholars in the world presently accept Darwinian evolution (though most OEC Christians do not). In the 18th century, most physicians believed that bleeding was an almost universal cure for sickness. Also in the late 18th century, most chemists believed that when a material was burned it released a substance called phlogistron. Joseph Priestley’s discovery of oxygen proved them wrong.

In his recent book on science and faith, Collins does address some of the Jesus AGE verses, saying that “if this [young-earth] argument is sound, I’m in trouble.”<sup>77</sup> This is because he rejects the literal, six-day creation view. After summarizing accurately the young-earth argument from the Jesus AGE verses, he says that it “finds its credibility from the way the English ‘from *the* beginning’ seems so definite; but the Greek is not so fixed.”<sup>78</sup> He then discusses several verses to argue that “from the beginning” in Matthew 19:4 and 8 is referring to the beginning of the human race. He says that the phrase found in 1 John 1:1, and 2:13–14 relates to Christ and refers “to a ‘time’ before the world began.” The same phrase used in 1 John 3:8 and John 8:44 in relation to Satan refers, he contends, “to the beginning of the world or perhaps to the beginning of his own rebellion.”<sup>79</sup> On the other hand, he observes that 1 John 2:7, 24, and 3:11 refer to the time when John’s readers became Christians or to the beginning of the Apostles’ ministry. Without further comment Collins then concludes, “If we apply this insight to the verses in Matthew 19, we find that they most naturally refer to ‘the beginning’ of the human race.”<sup>80</sup>

Attempting to neutralize the young-earth argument from Mark 10:6, he refers to Matthew 24:21 (“from the beginning of the world”) and its parallel passage in Mark 13:19 (“from the beginning of the creation”). He says that these phrases here cover all of time or at least all of the time that humans have existed to experience tribulation. But he contends that the total time since the absolute beginning is irrelevant to Jesus’ point in Mark 10:6. So he concludes that these discussed verses “have no bearing on the age of the earth.”<sup>81</sup>

Several things can be said in response. First, we might ask how Collins knows that young-earthers only build their argument from the italicized word (“the”) in the English phrase “from *the* beginning.” None of the young-earthers cited in this essay argue that way. But in any case, the English phrase is no more definite than the Greek phrase. Second, in 1 John 1:1 and 2:13–14, John easily could have said “He who was *before* the beginning” (cf. John 17:24 and 1 Peter 1:20). But he rather says “He who was *from* the beginning.” Given the opening of John’s gospel, which refers to the creation of *all* things in the beginning, there is no reason whatsoever to see these verses as lending support to the restricted meaning of “the beginning of the human race.” Third, none of Collins’ suggested meanings of the verses about Satan (1 John 3:8 and John 8:44) and the verses about Christians (1 John 2:7, 2:24, and 3:11) supports his restricted interpretation. Since we don’t know precisely what “from the beginning” refers to with respect to Satan, those verses cannot be used to support Collins’ particular interpretation of “from the

80. *Ibid.*, p. 107.

81. *Ibid.*

beginning of the human race.” But also, while that verse and the ones related to Christians in 1 John may be construed to give “insight” to Collins’ interpretation of Matthew 19:4, they do so only because he has ignored the additional words “of creation” in the parallel passage of Mark 10:6.

Lastly, Collins overlooks Luke 11:50–51, which is relevant to his argument about Mark 10:6. It should be noted that neither I nor any other young-earthier has argued that the age of the earth is “the point” of any of these Jesus AGE verses. Although the particular phrases we are studying are incidental to the main thrust of Jesus’ statements, they nevertheless do reveal something of Jesus’ worldview (i.e., that He was [and still is] a young-earth creationist). In Luke 11, Jesus could have said merely that “the blood of all the prophets will be charged against this generation, from the blood of Abel . . .” and left out the words “shed from the foundation of the world.” This latter phrase is unnecessary to warn people of judgment, but its presence reveals an aspect of Jesus’ worldview. The same applies to the additional but unnecessary (if Jesus is only referring to the beginning of the human race) words “of creation” in Mark 10:6 and 13:19. Furthermore, it is very doubtful that any Pharisees and any Christian readers of the Gospels prior to the 19th century would have thought that Jesus was referring to only the creation of man or the beginning of the human race, for there is no biblical evidence that long ages of time elapsed between the absolute beginning in Genesis 1:1 and the creation of man in Genesis 1:26 and, as we noted earlier, Jesus always treated the OT narratives as straightforward history.

We therefore have good reasons to reject Collins’ attempts to avoid the clear implications of the Jesus AGE verses for our understanding of the age of the earth. Also, it is clear from his book that the driving force behind Collins’ old-earth interpretations of Scripture is his unquestioning trust in the claims of the evolutionary geologists about the age of the rocks. At the end of his four-page discussion of geology he states, “I conclude, then that I have no reason to disbelieve the standard theories of the geologists, including their estimate for the age of the earth. They may be wrong, for all I know; but if they are wrong, it’s not because they have improperly smuggled philosophical assumptions into their work.”<sup>82</sup> But, as I argue elsewhere,<sup>83</sup> smuggling philosophical assumptions into their work is precisely what geologists have done (usually unknowingly because of the educational brainwashing they received). Without the uniformitarian assumptions of philosophical naturalism, which have controlled geology (and astronomy) for the past two centuries, there would be no “evidence” for millions of years. Endorsed by Hugh Ross, Don Stoner

83. See my earlier chapter in this book and also Terry Mortenson, “Philosophical Naturalism and the Age of the Earth: Are they related?” *The Master’s Seminary Journal*, 15:1 (Spring 2004), p. 72–91, [www.answersingenesis.org/docs2004/naturalismChurch.asp](http://www.answersingenesis.org/docs2004/naturalismChurch.asp).

promotes the day-age theory and attempts to refute the young-earth arguments from the Jesus AGE verses.<sup>84</sup> First of all, he says that “Adam was created on the sixth day of creation, not the first. This was not the beginning of creation no matter how long or short the creation days were.” But, as noted before, “the beginning of creation” refers to the whole first week and when Jesus said these words 4,000 years after the beginning, the sixth day was truly at the beginning of creation, on the level of precision that He was speaking (everyday language to a non-scientific audience).

Secondly, Stoner argues that κτίσις (“creation”) in Mark 10:6 should be translated as “institution” so that Jesus should be understood to be talking about the beginning of the institution of marriage, not the beginning of creation. He bases this interpretation on the fact that in 1 Peter 2:13 κτίσις is translated in the NIV as “authority instituted.” But Stoner is mistaken because he did not pay careful attention to his own English quote of Peter, where it says “to every authority instituted *among men*,” i.e., to every human authority or “to every human institution” (as in NASB). The Greek text is clear: in πάσῃ ἀνθρωπίνῃ κτίσει the adjective ἀνθρωπίνῃ (human) modifies κτίσει (creation). An institutional authority (such as kings, governors, and slave masters, which Peter discusses in the context) is indeed a “human creation” (the literal translation of Peter’s Greek words). But this is a very different contextual use of κτίσις than we find in Mark 10:6. Furthermore, Jesus could have easily said “from the first marriage” or “from the beginning of marriage” or “since God created man,” if that is what He meant. Also, if we give κτίσις in Mark 10:6 the meaning “authority” or “institution,” it makes no sense. What would “from the beginning of authority” or “beginning of institution” mean? To make it meaningful, Stoner would have to add a word to the text, which has no clear contextual justification.

Finally, Stoner ignores Mark 13:19 and Luke 11:50–51, which were discussed in two of Henry Morris’ books cited by Stoner and which also expose the error of his interpretation of Mark 10:6. It is also noteworthy that neither the NASB nor the NIV (nor any other English translation I consulted) uses “authority” or “institution” as a translation for κτίσις in Mark 10:6. All of the above applies equally to the reasoning of Geisler and Ankerberg,<sup>85</sup> who in their opposition to the young-earth view, reason essentially the same as Stoner and Ross do on Mark 10:6.<sup>86</sup>

84. Don Stoner, *A New Look at an Old Earth* (Eugene, OR: Harvest House, 1997), p. 53–54.

85. John Ankerberg and Norman Geisler, “Differing Views on the ‘Days’ of Genesis,” [www.johnankerberg.com/Articles/science/SC0704W1.htm](http://www.johnankerberg.com/Articles/science/SC0704W1.htm). Also, see question 28 at [www.johnankerberg.org/Articles/science/creation-questions/SC-creation-questions.htm](http://www.johnankerberg.org/Articles/science/creation-questions/SC-creation-questions.htm). Geisler and Ankerberg also do not refer to Luke 11:50–51 and Mark 13:19.

86. See my response to the Geisler/Ankerberg article at [www.answersingenesis.org/docs2004/1101ankerberg\\_response.asp](http://www.answersingenesis.org/docs2004/1101ankerberg_response.asp).

In their little 1991 booklet on evolution, Ankerberg and Weldon mention Matthew 19:4–5 (parallel to Mark 10:6) as part of their defense of the young-earth view. They even state that they have studied the various old-earth reinterpretations of Genesis “in detail and believe they all have fatal biblical flaws.”<sup>87</sup> Unfortunately, Ankerberg has since ignored Jesus’ teaching, and his own reasoning based on it, and has abandoned the young-earth view by sympathizing with Hugh Ross’s old-earth views in an October 2000 TV debate between Ross and Kent Hovind.<sup>88</sup> He has continued to promote Ross’s teaching in a 2004 TV series and in another series with Kaiser and Ross in 2005<sup>89</sup> and by moderating (but not impartially) the 8-part TV series “The Great Debate” between Ken Ham and Dr. Jason Lisle from Answers in Genesis and Drs. Kaiser and Ross, which was televised starting in January 2006.<sup>90</sup>

Wenham contends correctly that Jesus “consistently treats the historical narratives as straightforward records of fact.”<sup>91</sup> In his discussion that follows this statement he cites more than 50 passages from the gospels and refers once to Mark 10:6 and three times to Luke 11:50–51. After one mention of the latter passage Wenham states, “This last passage brings out his [Jesus’] sense of the unity of history and his grasp of its wide sweep. His eye surveys the whole course of history from ‘the foundation of the world’ to ‘this generation.’”<sup>92</sup> Wenham notes that “Curiously enough, the narratives that are least acceptable to the so-called ‘modern mind’ are the very ones that he seemed most fond of choosing for his illustrations.”<sup>93</sup> But then he strangely reasons later, on the same page in reference to Mark 10:2, that “the references to the ordinance of monogamy ‘from the beginning of creation,’ for instance, do not seem to necessitate a literal interpretation of chapters 1 and 2 of Genesis for their validity.” However, in the process of justifying this view he overlooks Mark 10:6 and instead focuses on the laws of Moses referred in Mark 10:3–4 (cf. Deut. 24:1, 3). He seems not to have applied his own true statement to his thinking on origins: “Thus to our

Lord the Old Testament is true as to its history, it is of divine authority, and its very writings are inspired by God himself.”<sup>94</sup>

Wenham presents the same arguments in summary form in his contribution to the defense of inerrancy.<sup>95</sup> He gives good reasons for rejecting the notion that Jesus accommodated His teachings to the (supposed) erroneous beliefs of His contemporaries. He cites Luke 11:50–51 three times (quoting it in full once) to affirm that “Jesus consistently treats Old Testament historical narratives as straightforward records of fact.”<sup>96</sup> But in his listing of 27 gospel passages, he starts with Abel (instead of Adam) and again overlooks Mark 10:6 and 13:19. When he later does refer to Mark 10:2ff, he states:

The teaching of monogamy as being God’s plan from “the beginning of creation” perhaps does not necessitate a literal interpretation of chapters 1 and 2 of Genesis for its validity; but subsequent reference to the changed situation under Moses seems to require it. Seldom can a non-literal meaning be applied without some loss of vividness and effectiveness.<sup>97</sup>

Sadly, Wenham’s scholarly understatement weakens the authority of our Lord’s straightforward records of fact. And nowhere in his discussion does Wenham explain on what grounds he does not accept the literal interpretation of Genesis 1 and 2.

In a 1989 article on the history and future of evangelicalism, Wenham begins with these words: “Many devout and thoughtful people are deeply worried as to where evangelicalism is going.”<sup>98</sup> He recounts with sadness the fact that many evangelicals have slid into liberalism or at least a denial of inerrancy. He decries the fact that the Christian faith and morals have lost much ground in the 20th century. He admits that “Darwin raised problems for biblical Christianity which neither the Victorians nor ourselves have ever wholly solved,” but he strongly rejects young-earth creationism. He considers it to be “far saner and healthier” to reject Darwinism while still accepting the millions of years demanded by evolutionary geologists and cosmologists, though he does not endorse any particular old-earth reinterpretation of Genesis.<sup>99</sup> In his proposed plan of action to revive evangelicalism, he says that “we shall probably have to work again and again at Genesis 1–11,” but apparently that means coming up with new alternative old-earth reinterpretations, rather than accepting the straightforward literal interpretation which Jesus and the apostles affirmed.<sup>100</sup> He concludes by saying,

99. *Ibid.*, p. 212.

100. *Ibid.*, p. 217.

As noted before, early 19th century young-earth creationists (the scriptural geologists) pointed this out when the Church was quickly compromising with the new geological theory of millions of years.<sup>102</sup> Twentieth-century young-earth creationists have been using the Jesus AGE verses in support of this view for decades.

On the other hand, of the 61 old-earth proponents examined (many of them among the top scholars in evangelicalism) only three (Grudem, Collins, and Stoner) dealt with the Jesus AGE verses and attempted to rebut the young-earth creationist interpretation of them. But their old-earth arguments were found wanting. Sadly, many of these old-earth proponents refer to each others' writings (therefore circulating their misguided arguments). The vast majority of them do not attempt to refute the best young-earth arguments and in fact give little or no evidence of having even read the most current, leading young-earth writings.

There is only one reason that the above 61 old-earth authors hold on to the idea of millions of years. It is not because the idea of millions of years is taught in the Bible, for it is not. It is, as many of these men plainly indicate, because they are operating with the assumption that the evolutionary geologists and astronomers have proven scientifically that the creation is billions of years old. In addition to the statement by C. John Collins earlier in this essay, many other examples could be cited. Meredith Kline stated, "In this article I have advocated an interpretation of biblical cosmogony according to which Scripture is open to the current scientific view of a very old universe and, in that respect, does not discountenance the theory of the evolutionary origin of man."<sup>103</sup> But this assumption that the scientists have proven millions of years is simply false, as many of the resources cited in an appendix to this work demonstrate. I plead with my old-earth Christian readers to become acquainted with these scientific arguments for a young earth.

In light of this study, Mark Noll's scathing criticism of young-earth creationism is shown to be grossly in error. In his widely acclaimed book denouncing young-earthers for the alleged scandalous misuse of their minds, he states that they use

102. See footnote 30.

103. Kline, "Space and Time in the Genesis Cosmogony," p. 15, fn. 47. Likewise, James M. Boice said, "We have to admit here that the exegetical basis of the creationists is strong. . . . In spite of the careful biblical and scientific research that has accumulated in support of the creationists' view, there are problems that make the theory wrong to most (including many evangelical) scientists. . . . Data from various disciplines point to a very old earth and an even older universe." See Boice, *Genesis*, 1:57–62. Similar statements are Gleason Archer, *A Survey of Old Testament Introduction* (Chicago, IL: Moody, 1985), p. 187; J.P. Moreland, *Scaling the Secular City*, p. 219–220; Geisler, *Encyclopedia of Apologetics*, p. 270–272; Sailhamer, *Genesis Unbound*, p. 15; and Pattle P.T. Pun, "A Theory of Progressive Creationism," *Journal of the American Scientific Affiliation*, Vol. 39 (March 1987): p. 14. Many others could be cited.

. . . a fatally flawed interpretive scheme of the sort that no responsible Christian teacher in the history of the church ever endorsed before this century came to dominate the minds of American evangelicals on scientific questions . . . [These young-earthers are] almost completely adrift in using the mind for careful thought about the world. . . . thinking they are honoring the Scriptures, yet who interpret the Scriptures on questions of science and world affairs in ways that fundamentally contradict the deeper, broader, and historically well-established meanings of the Bible itself.<sup>104</sup>

Sadly, Noll largely bases his indictment of young-earth creationists on the historical interpretations of a secular historian of science, Ronald Numbers,<sup>105</sup> whom (amazingly) Noll describes as a “truly professional” historian who has “few bones to pick with basic Christian teachings.”<sup>106</sup> Numbers is certainly a justifiably respected historian of science. But as a self-proclaimed agnostic (and former Seventh Day Adventist who was taught young-earth creationism), Numbers is far from being unbiased or neutral on basic Christian doctrines — he rejects most, if not all, of them! Furthermore, Noll also accepts the condescending evaluation of young-earthers by James Moore (a former evangelical, turned skeptic), and many other non-Christian historians. He offers no substantive exegesis of Scripture to defend his old-earth views and completely overlooks the Jesus AGE verses as he harangues young-earthers for shallow thinking and lack of scholarship. Judging from his text and footnotes, we might justifiably conclude that the only young-earth literature he has read is the introduction to Whitcomb and Morris’s *The Genesis Flood* (published 33 years ago before Noll’s book!), although he seems to have read a considerable amount of literature from theistic evolutionists and progressive creationists. So where does the scandalous use of the evangelical mind really lie? And just who is using a fatally flawed hermeneutic to interpret Genesis? It is truly sad to see such a justly respected Christian historian ignore the overwhelming witness to young-earth creationism in the first 18 centuries of Church history.

We need to heed the words spoken by God to Peter, James, and John on the Mount of Transfiguration. While the gospel writers record different aspects

104. Mark A. Noll, *The Scandal of the Evangelical Mind* (Grand Rapids, MI: Eerdmans, 1994), p. 13–14. He said essentially the same thing in his widely read article: Mark A. Noll, “The Scandal of the Evangelical Mind,” *Christianity Today* (Oct. 25, 1994): p. 29–32.

105. Numbers does not discuss history before the 1850s. He therefore draws the erroneous conclusion that the young-earth view is a modern invention. Perhaps at the time he wrote this book he knew nothing about the young-earth “scriptural geologists” of the early 19th century. As my book *The Great Turning Point* (Green Forest, AR: Master Books, 2004) shows, it is the old-earth view that is novel in the Church. Shortly after publication, I sent Numbers a copy, so he knows now.

106. Noll, *Scandal*, p. 14.

of God's declaration about the nature of Jesus' Sonship (Luke 9:35, Mark 9:7, Matt. 17:5), they precisely agree in their quotation of God's command: "Listen to Him!" Evangelicals, and especially evangelical scholars, need to listen to what Jesus says about Genesis 1–11 and the age of the earth.

I return to a quote, which I used at the beginning of this essay, but which is worth repeating. Ravi Zacharias is correct to say that, "Jesus claimed to be 'the truth.' Let us test his claims and teachings. If they are true, what He says matters more than anything else in life."<sup>107</sup> Jesus made some sobering statements about the importance of believing His words. In John 8:31–32 we read, "So Jesus was saying to those Jews who had believed Him, 'If you continue in My word, then you are truly My disciples; and you will know the truth, and the truth will make you free.'" And in John 12:47–50 He warns:

If anyone hears My sayings and does not keep them, I do not judge him; for I did not come to judge the world, but to save the world. He who rejects Me and does not receive My sayings, has one who judges him; the word I spoke is what will judge him at the last day. For I did not speak on My own initiative, but the Father Himself who sent Me has given Me a commandment as to what to say and what to speak. I know that His commandment is eternal life; therefore the things I speak, I speak just as the Father has told Me.

Among the words which the Father commanded Jesus to say were those in Mark 10:6, 13:19, and Luke 11:50–51. Those verses are also relevant to Paul's warning about how we respond to the teaching of Jesus: "If anyone advocates a different doctrine and does not agree with sound words, those of our Lord Jesus Christ, and with the doctrine conforming to godliness, he is conceited and understands nothing" (1 Tim. 6:3–4). And in John 5:45–47, Jesus says, "Do not think that I will accuse you before the Father; the one who accuses you is Moses, in whom you have set your hope. For if you believed Moses, you would believe Me, for he wrote about Me. But if you do not believe his writings, how will you believe My words?"

Given this study, it seems legitimate to conclude that if we do not know and believe Christ's words about the age of the earth, then we may not believe Moses' words either. But if we do believe and submit to the authority of Jesus' clear and straightforward words concerning the age of the earth, then we must believe Moses' clear and straightforward words about the details of creation week, the Fall, the Flood, the Tower of Babel, and the other historical facts in Genesis 1–11.

We cannot with consistency follow the teachings of our Lord Jesus Christ and at the same time follow the teachings of the evolutionary geologists and astrophysicists (and the Christian geologists and astrophysicists who promote their old-earth teachings in the Church). As the old-earth proponent C. John

107. Zacharias, *Can Man Live*, p. 131.

Collins rightly reasons, if millions of years indeed transpired before Adam was created and Jesus believed Adam was at the beginning of creation, “then we must conclude that Jesus was mistaken (or worse, misleading), and therefore he can’t be God.”<sup>108</sup>

Let us no longer ignore our Lord’s teaching. If we call Him Lord, can we have a different view of Genesis and the age of the earth than He had and in addition say that the age of the earth does not matter
