

# FASCINATING FACTS

Find the **orange** words in the word search.

- Hummingbirds can fly just as easily **backwards** as they can forwards.
- Hummingbirds lay the tiniest bird eggs, each weighing less than a **jelly bean**.
- The average ruby-throated hummingbird weighs less than a **nickel**.
- Hummingbirds have little sense of smell but very keen **eyesight**.
- Though tiny, hummingbirds are very **aggressive**. They will attack large hawks and crows that invade their territory, then dart away.
- Hummingbirds can **remember** which flowers they visit so they don't waste time returning to empty ones.
