What's the Word?

OUR WORLD is full of wonderful words. God created Adam on day six of creation with the intelligence to name the animals and communicate with God and Eve. At the tower of Babel, God confused the people's language so that they would spread out. Today, there are over 7,000 different languages in the world.

The English language includes over 500,000 words! Most of those words have smaller words hidden within them.
