

You may have heard this story.

The Utahraptor ...

... lived about 125 million years ago and evolved through millions of years of change.

... was caught in a flooding river and died.

... dried out on a river bank in the sun.

... was slowly buried by river sediments and gradually became a fossil.

The Bible helps us understand the truth.

The Utahraptor ...

... lived about 4,300 years ago. "God made the beasts of the earth" (Genesis 1:25).

... was caught in the Great Flood. "The Lord said, I will destroy ... man and beast" (Genesis 6:7).

... floated on Flood waters. "All flesh died that moved upon the earth" (Genesis 7:21).

... was suddenly buried in the global Flood. "The world that was then, being overflowed with water, perished (2 Peter 3:6)"
