

ULTIMATE SURVIVORS

Step right up and see how God's creatures survive in extreme conditions!

ALL LIVING THINGS HAVE
3 BASIC NEEDS:

WATER ♦ **FOOD** ♦ **OXYGEN**

While humans can endure amazing things, God gave some of His animals survival skills that are almost unbelievable.

NO WATER

3
WEEKS

MAN: The average person can survive 3 to 4 days without water, but did you know a Japanese hiker once survived over 3 weeks without water? Doctors believe he survived by falling into a hibernation-like sleep. Our body doesn't need as much water during such hibernation.

ANIMAL: When the African lungfish realizes that its lake is drying up, it will bury itself for as long as 4 years waiting for the water to return.

4
YEARS

NO FOOD

10
WEEKS

MAN: Normally, you can last 3 weeks without eating anything. But some prisoners on a hunger strike have survived over 10 weeks without eating a bite.

ANIMAL: Reptiles and other cold-blooded animals can go months without eating, and alligators have been known to last for up to 2 years without eating.

2
YEARS

NO OXYGEN

21
MINUTES

MAN: How long can you hold your breath? Three minutes is typically the longest. But swimmer Peter Colat broke the Guinness world record by holding his breath for 21 minutes and 33 seconds!

ANIMAL: The microscopic water bear, which lives on plants, is no stranger to surviving without breathing. In its special "death-like" state, it can stop breathing for up to 100 years!
