# NEW CREATION MUSEUM SHEDS LIGHT ON BIBLICAL ACCOUNT OF EARTH'S FORMATION: *Media Invited to Special Sneak-Peek Before Memorial Day Grand Opening*

- WHAT:** Answers in Genesis (AiG) is opening a \$27 million Creation Museum, which will show visitors a biblical portrayal of the history of the world. Highlights in the 60,000 square-foot facility include 55 animatronic and static figures (dinosaurs and humans), a 200-seat, special-effects theater and a 30-foot-tall depiction of Noah's Ark. Despite the hundreds of protestors expected to attend the opening and in spite of pushback from educators who claim the museum is misleading, the exhibits – including those with fossils – are based on scientific findings. Nearly 200 modern scientists who accept the biblical account of creation and have been educated at mainstream universities are backing the museum. Media are invited to a special press conference and ribbon-cutting ceremony Saturday, two days before the grand opening to the public. After the event, the museum will be open for the media to tour the exhibits.
