

All-Scripture. All-Gospel. All-Truth...

The All-Asian Creation Conference is anchored by *Answers in Genesis* and we are privileged to be hosting the following speakers. As the invite list is still work in progress, do expect more distinguished speakers to be joining the line-up as we progress nearer to 15 November 2011.

Key Speakers

Ken Ham

President and CEO, *Answer in Genesis*—USA & the Creation Museum. Since moving to America in 1987, Australian Ken Ham—president and founder of *Answers in Genesis* and the new highly acclaimed Creation Museum (with over 719,000 visitors in its first two years)—has become one of the most in-demand Christian conference speakers and talk show guests. Ken's emphasis is on the relevance and authority of the book of Genesis to the life of the average Christian, and how compromise on Genesis has opened a dangerous door regarding how the culture and church view biblical authority.

Dr. David Crandall

Dr. Crandall has ministered cross-culturally in 90 different countries. In his final year at GLS, the ministry distributed gospel literature to some 350 million people. In 2006, God directed Dr. Crandall to join the team at *Answers in Genesis*. He was named international director of *Answers WorldWide* and is currently responsible for taking AiG's creation ministry around the world. *Answers WorldWide* is translating, publishing, and distributing AiG materials to the mission fields of the world. Dr. Crandall also brings international Christian leaders to the Creation Museum in the U.S. for training and provides AiG libraries to Bible schools and seminaries around the world.

Dr. Andrew Macintosh

Dr. Macintosh is a Professor in Combustion Theory at Leeds University. His Ph.D. was in aerodynamics. A number of his students later worked for Rolls Royce, designing aircraft engines. He has written many books and lectured extensively in universities. He has mostly focused on the complexity and design inferences illustrated by flight capabilities of organisms. In addition, he works on how many kinds of insects such as bombardier beetles can support the creation model.

Steve Ham

Steve serves as Senior Director of Outreach for *Answers in Genesis*, overseeing the 250 conferences and other events that AiG typically holds each year. This oversight also includes AiG's international division, *Answers WorldWide*, which includes speaking tours overseas and a translations ministry (more than 75 languages). Steve is the author of the new book *In God We Trust: Why Biblical Authority Matters for Every Believer* (2010) and other works, including the popular curriculum on creation evangelism entitled *Answers for Life*. He also co-authored *Raising Godly Children in an Ungodly World* with his brother Ken. Steve's heart for evangelism and missions has resulted in serving on the boards of various Christian schools and missions organizations.
