

FIND OUT MORE ABOUT THE ONE TRUE GOD!

During this Bible study, we went deep into the Bible to find out more about our great God and Savior.

We can trust the Bible because it comes from God, who cannot lie. No other book in the world was written by someone who always tells the truth. The Bible is special and unique, and we can trust it to tell us the truth about the past, present, and future. Because the Bible is true, we need to be careful not to add or take away words from it. When it teaches

that God created in six days, we can believe it! When it says that Jesus was born of the virgin Mary, died on the cross, and rose again, we can believe it! How can you show that you trust the God and his Word?

According to the Bible, God made the heavens—the sun, moon, stars, galaxies, and other planets. They didn't come from a big bang billions of years ago. When we study the heavens, we are studying the handiwork of God. We can glorify him for the amazing and vast universe that he has created. How can you praise God when you study astronomy?
