Note to Parents and Teachers

The Truth Chronicles books were written to teach young people how to defend the Christian faith and witness to their friends in the context of an action/adventure series. This study guide has been developed to help you and your students to dig deeper into the issues covered in these exciting novels.

The first three books cover numerous important issues related to apologetics, biblical worldview, and Christian living. We have chosen 15 of these subjects for this study guide. By the time your students complete these lessons, they will have gained a better understanding of the Christian faith and how they can know that the Bible is authoritative in every area.

Each page will address one subject and will include the following information:

- Bible passage to read which covers the topic
- Where it is found in the series and who discusses it
- Study questions designed to help the student think critically about the issue
- At least one link to an online article and recommended resource which covers the topic in more detail

We recommend reading all three books in the series before using the study guide. This will help the student become familiar with the issues and the story before answering the questions.

It is our prayer that God will use these books to help young readers have a better understanding of God's Word and how we can use it to make sense of this world. May God bless you and your students as you learn more about Him.

Worldviews (Part One)

In the Bible: Luke 6:43–45; Galatians 5:16–26
(Compare the behaviors of the godly and ungodly.)

In the books: Book 2, 87–88

Jonas explains to the teens that worldviews affect how one interprets the evidence.

Study Questions:

Explain how your worldview is like a pair of glasses.

What does it mean to have a biblical worldview?

If someone has an evolutionary worldview, why is it difficult for them to understand biblical creationism?

Read John 12:27–29. Notice the three different responses to the voice from heaven (God, angel, thunder). Why do you think the people reached different conclusions?

What roles do media influences (news, magazine, books, movies, etc.) along with friends and family members have on your worldview?
