The Creation Museum presents a “walk through history.” Designed by a former Universal Studios exhibit director, this state-of-the-art 70,000 square foot museum brings the pages of the Bible to life while providing a fully engaging, sensory experience for guests. Murals and realistic scenery, computer-generated visual effects, dozens of exotic animals, life-sized people and dinosaur animatronics, and a special-effects theater complete with misty sea breezes and rumbling seats are just some of the impressive exhibits that everyone in your family will enjoy.

Quick answers to 10 of the most-asked questions from The New Answers Book 1

Using The New Answers DVD With Groups

We suggest that you view one segment per study, allowing plenty of time to cover the topic and answer any questions.

The DVD was created to provide short answers to the most-asked questions from The New Answers Book. These answers are all questions that Bible-believers frequently ask. We’ve covered creation, evolution, and the Genesis Flood, and we’ve included short, clear answers. That’s why this DVD will help you answer questions about the Bible’s authority and inerrancy, and show how the evidence supports the historical account of Genesis.

6. Do you know where Cain and Abel were from?

7. What were the reasons for Cain and Abel’s rivalry?

8. How did defense/attack structures come about?
Does Distant Starlight Prove the Earth is Old?

Before viewing:

Do you know how far away some of the stars are that we can see at night? Do you know the speed of light?

A common argument against the biblical time frame of creation (about 6,000 years ago) is called the "distant starlight" problem. Have you heard of this?

How could the light from stars billions of light-years away have made it to earth in only thousands of years?

After viewing:

What are some ways we can explain light traveling to a young earth from stars billions of light-years away?

How does gravitational time dilation solve the distant starlight "problem"?

Why would we not want to say that God created the beam of light already en route to earth?

What is the light-travel time problem with the big bang model?

Is this a question that we can answer definitively?

Doesn't Carbon-14 Dating Disprove the Bible?

Before viewing:

How old do most scientists think the earth is? How old do you think the earth is?

After viewing:

Can you date rocks with radiocarbon? Why or why not?

How quickly does radiocarbon decay?

If fossils were really millions of years old, should they have radiocarbon in them?

If so, how quickly does radiocarbon decay?

Have you heard of Carbon-14 or radiocarbon dating?

After viewing:

You know about Carbon-14 or radiocarbon dating, right?

Have you heard of Carbon-14 or radiocarbon? What do they determine the age of?

Can you date rocks with radiocarbon? Why or why not?

After viewing:

After viewing:

Is radiocarbon found in diamonds? Should there be radiocarbon in diamonds? What does this tell us about their age?

How does this conflict with the Bible?
5. Was There Really a Noah's Ark and Flood?

Before viewing:
1. What are some of the arguments skeptics use to dispute the historical nature of Noah's Ark and the Flood?
2. Does anyone know how large the Ark was? How long did it take Noah to build it?
3. How do we know the Flood was global and not just a local flood?

After viewing:
1. What do we find on the earth that confirms a global flood?
2. Did Noah take all the species of animals on the Ark?
3. How is Noah's Ark a picture of salvation?
4. Why do so many various cultures have similar flood legends?
5. About how many different kinds of animals are there?
6. What happened to most of the dinosaurs?
