

SUGGESTED HOMESCHOOL SCHEDULE

Although *Answers Bible Curriculum* was designed to be a Sunday school/Bible curriculum for churches, it can easily be adapted for homeschool and other uses. One way to use ABC as a homeschool Bible curriculum is outlined below.

WEEKLY SCHEDULE

- Each ABC lesson will take three class sessions, 30 to 45 minutes each. The two quarterly review lessons take two class sessions.
- If you teach Bible five days a week, the total time to complete each Quarter of lessons is eight weeks. This allows for a couple days that can be missed.

Day 1 Review previous lessons by following the instructions in the Review Box. Teach the first block of Studying God's Word: Read the Word, Examine the Word, Observe the Text, and Discover the Truth.

Day 2 Cover the remaining teaching in the Teacher's Manual to the end of the Lesson. If applicable, do one or both of the Activities.

Day 3 Go over the Student Take Home Sheet with your children. Review the main points of the lesson by having them answer the review questions on the front page. Answer every question in the Read the Word section. Read the OutWord section on the back page together with your children. Practice the Memory Verse. While the child completes the hands-on part of the Take Home Sheet, the parent quietly reads the next lesson's Prepare to Share section.

Day 4 Start teaching the next lesson in the Quarter, following the instructions for Day 1 above.

Day 5 Continue teaching the lessons in chronological order, taking approximately three days per lesson.

Each Day Practice the Memory Verse using the Memory Verse poster. Review the Ten Commandments, books of the Bible, and the attributes of God using the classroom posters.

PREPARATION TIPS

- Laminate all posters. Laminate the Memory Verse Posters back-to-back in one lamination, since you will only use one side at a time, unlike the other posters.
- Print out the handouts for each Lesson for the Quarter from the Resource DVD-ROM.
- Place the 11 Lesson Theme Posters in plastic paper-protection sleeves and put in a three-ring binder.
- Provide a three-ring binder for each child to insert printed handouts and completed Take Home Sheets.

WHAT OTHERS ARE SAYING

“ Hi! I’m a homeschool mom and I recently purchased Answers Bible Curriculum for my kindergartner and preschooler. I love love LOVE it! My boys really enjoy the activities and the songs! The songs are our favorite! Thank you so very much! Thank you for writing this curriculum. ”
—Maureen, Beaverdam VA

“ We have been using Answers Bible Curriculum (PreK-K) for our homeschool Bible teaching this year and our family loves it. The resources, Flip Chart, & content have been great and my girls have learned so much. The songs have been a wonderful addition and really help kids learn and retain info. ”
—Faith, Galt CA

“ I want to thank AiG for such an amazing curriculum. As Christian parents we want our children to believe in God and serve Him, but we often fail at teaching them God’s Word and how to defend their faith. Answers Bible Curriculum provides an invaluable tool that enables us to equip our children to defend their faith against the common opinions that deny the veracity of God’s truth. Our children are convinced, from studying the Bible, that God’s Word can be trusted and it is true. I have been teaching the Bible at my church for four years. But, my most rewarding class is my own family. ”
—Francisco, Orlando FL
