- 24 **Lessons from the Fall**  
Genesis 3 is filled with practical lessons. Its nuggets of wisdom help us face the hardships of life and understand the consequences of sin.
- 30 **Design in the Curse**  
Did the Creator of the perfect paradise design creatures to hurt and kill?
- 32 **Good Designs Gone Bad**  
Microbes—today we know them as agents of harm. Were they created this way or did something change?
- 36 **Designed to Kill in a Fallen World**  
Venom and fangs—the evidence of design in snakes is unmistakable. Random mutations can't be the answer.
- 40 **Divinely Designed Defenses**  
God gave even the tiniest creatures an arsenal of defenses to help them thrive in a fallen world, despite their predators.
- 44 **Why Do God's Children Suffer?**  
Joni Eareckson Tada shares how God shows His grace, even in the midst of tragedy. He is still in control.
- 48 **Opportunities to Shine**  
Do you want to help others in need but don't know where to begin? Here is practical advice to get you started.
- 50 **Demons on a Leash**  
If God is sovereign over the heavens and the earth, where did demons come from and what is their role?
- 58 **The Most Horrific Graveyard in the World**  
Is the fossil record like the suffering world we see today, or the perfect world before Adam's sin, described in Genesis 1?
- 62 **The Splendor of Thorns**  
God cursed the ground with thorns, but He also used this aspect of the Curse to display His mercy on the cross.
- 66 **An Astronomer's Search for a Cursed Cosmos**  
If the Curse affected the whole cosmos, what evidence have astronomers discovered? The answer is not as easy as you think.
- 69 **Stem Cell Research: Life-Saving Alternatives**  
Contrary to media reports, stem cell research does not require the death of embryos. Using adult stem cells is a promising alternative.
- 70 **Quieter than a Speeding Bullet**  
God's creation has inspired many of mankind's greatest designs. Just look at that expert diver, the kingfisher bird.
- 72 **Radiometric Dating: Back to Basics**  
The first in a series, this article explains the basic science behind radiometric dating and how wrong assumptions can lead to incorrect dates. ■ Semi-technical
