

Has anyone ever told you that you can be anything you want when you grow up? How would you feel if you weren't allow to get an education that prepared you for your future?

In what ways, besides food, can the local church help families that have only known poverty?

MARINA

Country: **PERU**

Challenge: **GENERATIONAL POVERTY**

About: Marina has lived in the same small shack her entire life. She has never known a life outside of poverty. If things don't change for her, her children will likely live this way too. She knows that other kids go to school, but her mother can't afford to send her or her siblings. She wishes for a different future, but she doesn't know how to get it.

Prayer Requests:

Pray for children like Marina who feel trapped in tough situations and don't know how to make things better on their own.

Pray for the pastors seeking solutions to help children in poor communities get an education and break the cycle of poverty.
